

## P/N T-680 Programming Tool

### FEATURES

- This Programming Tool is designed for programming of Series 680 Programmable Headers through “Top-Slot” header covers.
- Tool easily removes interconnections between pins without header cover removal and allows for on-the-spot programming.

**CUSTOMIZATION:** In addition to the standard products shown on this page, Aries specializes in custom design and production. Special materials, platings, sizes, and configurations can be furnished, depending on the quantity. **NOTE:** Aries reserves the right to change product general specifications without notice.
