

STP62NS04Z

N-channel clamped 12.5 m Ω , 62 A, TO-220 fully protected MESH OVERLAY™ Power MOSFET

Features

Туре	V _{DSS} R _{DS(} ma		I _D
STP62NS04Z	Clamped	< 0.015 Ω	62 A

- 100% avalanche tested
- Low capacitance and gate charge
- 175 °C maximum junction temperature

Application

Switching applications

Description

Fully clamped MOSFET is produced by using ST's most advanced MESH OVERLAY™ process based on strip layout. The inherent benefits of this new technology coupled with the extra clamping capabilities make this product particularly suitable for the harshest operating conditions such as those encountered in the automotive environment. It is also recommended for any other application requiring extra ruggedness.
