2.4 GHz

Supports: Wi-Fi applications, Agriculture, Automotive, Bluetooth, Zigbee, WLAN, Smart Home, Healthcare, Digital Signage

**BT Tunable PCB 2.4 GHz Embedded
Antenna with cable**

2.400 – 2.485 GHz

Ethertronics' WLAN antennas deliver on the key needs of device designers for higher functionality and performance in smaller/thinner designs. These innovative antennas provide compelling advantages for 2.4 GHz enabled devices.

Real-World Performance and Implementation

Antennas may look alike on the outside, but the important difference is inside. Other antennas may contain simple PIFA or monopole designs that interact with their surroundings, complicating layout or changing performance with use position. Ethertronics antennas utilize patented Isolated Magnetic Dipole (IMD) technology to deliver a unique size and performance combination. This antenna is also offered in FPC form under PN# 1003893FT.

The 1003893PT is offered in many standard cable lengths ranging up to 200 mm. Ordering part number guide is located at end of document for selection ease.
