

## TECHNICAL DATA SHEET

TE Document: TTDS-037

Issue: 4

Date: April 2014

### **HL Cable Marker**

HL Cable Markers are flat, non-adhesive labels that can be used to identify large cables and wire bundles in particularly aggressive environments. Cable Markers can be applied post cable termination using cable ties.

Manufactured using a specially developed radiation cross-linked flame retarded polymer. Typical installations include mass transit, Military and Aerospace.

Presented as organised markers assembled onto either a fanfold or reeled paper carrier to allow for greater range of printing formats and kitting.

### **KEY FEATURES**

- Highly flame resistant (Excellent resistance to burning - Oxygen Index 35%)
- Resistant to key industrial and military grade fluids (defined by RW-2513)
- Available in several height/width combinations, and non-standard color options

### **APPLICATIONS**

- Post termination cable identification
- Identification of large cables, wire bundles or pipework
- Installation friendly easy to replace, ideal for retrofitting and repairs. Only tie wraps are needed.
- Mass transit, Rail, Aerospace, Marine, Military and Industrial

### **TEMPERATURE RATING**

Operating Temperature Range -55°C to 135°C (-67°F to 275°F)

### **ENVIRONMENTAL**

The Cable Marker, including the print, does not promote mould growth (ASTM G21 / 28 days – zero rating)

Does not migrate materials which will damage or corrode the surrounding environment, including the conductor

Further information and a downloadable declaration covering RoHS and REACH compliance can be found at the TE Product Compliance Support Centre:

http://www.te.com/en/resources/product-compliance.html

### **SPECIFICATIONS / APPROVALS**

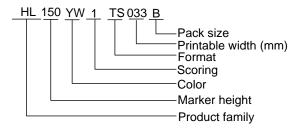

### **TE Connectivity Standard**

RW-2513

### Industrial

EN45545-2 'Hazard Classification 3' Requirement Set R24

### **PART DESCRIPTION**

Where possible, TE have tested product as a finished item, including the print. Operational tests are followed by an assessment of mark adherence to validate fit form and function. Further details can be found in TE standard RW-2539.
