

Technical drawing of a mechanical assembly, likely a pen holder or a similar device. The drawing shows a top-down view of the assembly. A dimension line at the top indicates a width of 23.5. The assembly consists of a central vertical component, possibly a pen, which is held in place by a horizontal component. The horizontal component has two rectangular openings, each containing a pen. The pens are oriented horizontally. The drawing uses solid lines for the main components and dashed lines for hidden internal features. There are also small rectangular components on the right side of the assembly.
