Restriction on the Use of Hazardous Substances (RoHS)

At Tyco Electronics, we're ready to support your RoHS requirements. We've assessed more than 1.5 million end items/components for RoHS compliance, and issued new part numbers where any change was required to eliminate the restricted materials. Part numbers in this catalogue are identified as:

RoHS Compliant

Part numbers in this catalog are RoHS Compliant, unless marked otherwise.

These products comply with European Union Directive 2002/95/EC as amended 1 January 2006 that restricts the use of lead, mercury, cadmium, hexavalent chromium, PBB, and PBDE in certain electrical and electronic products sold into the EU as of 1 July 2006.

Note: For purposes of this Catalog, included within the definition of RoHS Compliant are products that are clearly "Out of Scope" of the RoHS Directive such as hand tools and other non-electrical accessories.

Non-RoHS Compliant

These part numbers are identified with a "◆" symbol. These products do not comply with the material restrictions of the European Union Directive 2002/95/EC.

5 of 6 Compliant

A "●" symbol identifies these part numbers. These products do not fully comply with the European Union Directive 2002/95/EC because they contain lead in solderable interfaces (they do not contain any of the other five restricted substances above allowable limits). However, these products may be suitable for use in RoHS applications where there is an application-based exception for lead in solders, such as the server, storage, or networking infrastructure exemption.

Note: Information regarding RoHS compliance is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information provided by our suppliers. This information is subject to change. For latest compliance status, refer to our website referenced below.

Getting the Information You Need

Our comprehensive on-line RoHS Customer Support Center provides a forum to answer your questions and support your RoHS needs. A RoHS FAQ (Frequently Asked Questions) is available with links to more detailed information. You can also submit RoHS questions and receive a response within 24 hours during a normal work week. The Support Center also provides:

- Cross-Reference from Non-compliant to Compliant Products
- Ability to browse RoHS Compliant Products in our on-line catalog:
<http://ecommas.tycoelectronics.com/commerce/alt/RohsAltHome.do>
- Downloadable Technical Data Customer Information Presentation
- More detailed information regarding the definitions used above

So whatever your questions when it comes to RoHS, we've got the answers at www.tycoelectronics.com/leadfree

Product Facts

- Rugged connector system featuring 0.79 x 1.57mm posts with mating receptacles
- Current rating 5 amps max per contact
- Available for board-to-board and wire-to-board connection
- Contacts available in both tin and gold plating
- Flame retardant thermoplastic housings UL 94V-1 rated
- Shrouded pin headers feature polarisation and detent latching

Specification:

Current Rating	- 5 A max
Operating Temperature	- -40°C to +105 °C
Engaging Force	- 2.5 N per contact max (standard pressure contacts)
Separating Force	- 0.5 N per contact min (standard pressure contacts)
Durability	- 0.4 µm gold — 100 cycles 0.8 µm tin — 10 cycles (standard pressure contacts)
Contact Resistance	- 15 mΩ max
Insulation Resistance	- 5000 MΩ min

The 0.79 x 1.57mm interconnection system has been an industry standard for over 30 years. It is a rugged large scale system for board-to-board and wire-to-board connection in applications such as power supplies, industrial control and switchgear.

MOD I Receptacles

Cable mount receptacle housings accept crimp contacts with a wire size range from 17-22AWG (0.32-1.00mm²) and with a variety of plating options. Contacts are available in both reeled and loose piece format to suit different manufacturing requirements and volumes. Unhoused pcb receptacle contacts provide a simple board-to-board solution with MOD I unshrouded headers.

MOD I Headers

Pcb mount headers are provided in both shrouded and unshrouded versions. Shrouded headers are available in both straight and right angle variants with built-in polarisation when used with MOD I cable mount receptacles. Unshrouded pcb headers are offered for straight pcb mounting. Tin or gold plated contacts are available for both styles.

MOD I Shunt Connectors

The shunt connector is the easiest form of programming, allowing simple and flexible electrical connection. Supplied in strips they can be broken off as required. The open top design allows the use of a test probe while located in-circuit.

MOD I Receptacle Housings

Single Row

Specification:

Housing - Green glass fibre filled polycarbonate, UL 94V-1 rated

Mating Connectors:

MOD I Crimp Snap-In Receptacle Contacts

with Insulation Support

Specification:

Material - Phosphor bronze, plated as follows:

Plating A - Selectively plated 0.8 µm gold on contact area, with gold flash over 1.27 µm nickel on entire contact

Plating B - Selectively plated 0.4 µm gold on contact area with gold flash over 1.27 µm nickel on entire contact

Plating C - Pre-tin plated 0.8 µm

Engineering Notes

A large grid of squares, typically used for technical drawing or engineering notes. The grid is composed of small squares, with a slightly larger square in the top-left corner, serving as a margin for a title or reference.

Product Facts

- Single and double row connector system featuring 0.63mm square posts with mating receptacles
- Current rating 3 amps max per contact
- Available for board-to-board, wire-to-board and wire-to-wire applications
- Contacts available in both tin and gold plating
- Flame retardant thermoplastic housings UL 94V-1 and UL 94V-0 rated
- Shrouded pin headers feature polarisation and detent latching

Specification:

Current Rating	- 3 A max
Operating Temperature	- -40°C to +80°C
Engaging Force	- 1.8 N per contact max (standard pressure contacts)
Separating Force	- 0.4 N per contact min (standard pressure contacts)
Durability	- 0.4 µm gold— 100 cycles 0.8 µm gold— 200 cycles (standard pressure contacts)
Contact Resistance	- 15 mΩ max
Insulation Resistance	- 5000 MΩ min

A range of fully intermateable products on a 2.54mm centreline for board-to-board, wire-to-board and wire-to-wire applications. A very flexible range, ideal where a number of system connection methods are required, the MOD II Italian range provides reliable and dependable connection for a wide range of applications.

MOD II Receptacles

Receptacle products are offered in vertical and horizontal pcb mounting and as cable mount housings for crimp snap-in contacts with insulation support. Both pcb and cable mount receptacles feature polarisation and detent latching giving a positive click when used with the corresponding header variants. Crimp contacts for receptacle housings accommodate a wire size range of 20-30AWG (0.04mm² to 0.5mm²) and are available with a number of different plating options.

MOD II Shrouded Headers and Pin Housings

Available as both shrouded pcb headers with 0.63mm posts or as cable mount housings to accept crimp snap-in pin contacts with insulation support. Shrouded headers feature gold or tin plating in straight or right angle and will mate with both pcb and cable mount receptacles. Cable mount pin housings also mate with both pcb and cable mount receptacles. Crimp contacts for pin housings allow termination to wire size ranges 22-30AWG (0.04mm² to 0.32mm²) with a choice of plating finishes.

MOD II Receptacle Housings

Product Facts

- Comprehensive single and double row connector system featuring 0.63mm posts with mating receptacles
- Current rating 3A max per contact
- Available for wire-to-board and board-to-board applications
- Contacts available in both tin and gold plating
- Flame retardant thermoplastic housings are UL 94V-0 rated

Specification:

Current Rating	- 3 A max
Operating Temperature	- -55 °C to +105 °C
Contact Resistance	- 20 mΩ max
Insulation Resistance	- 1000 MΩ min

A wide range of modular interconnects on the industry standard 2.54mm grid addressing applications across all industry sectors. Designed for wire-to-board or board-to-board connection, including stacking, the AMPMODU 2.54mm interconnection system provides a comprehensive solution for this ever popular connection standard.

MOD II Breakaway Pin Headers

Supplied in a breakaway form, headers can be conveniently broken to any size needed ensuring maximum versatility. Available in straight and right angle, compatibility with mating receptacles is assured through a range of pin lengths and plating options. Pin headers are offered for surface mount, press fit action pin and standard through hole solder.

HV100/190 PCB Receptacles

HV100/190 receptacles are available in vertical and horizontal mounting and offer the benefit of a short contact point design. Options for sealing, top or bottom entry and surface mounting ensure a suitable connector is available for each application. Three mounting heights for the HV100 vertical receptacle allow the connector to be used for versatile stacking applications. All HV100/190 receptacles feature a choice of gold or tin contact plating.

MOD II High Temperature Shrouded Headers

With a range of dedicated cable mount receptacle products, the MOD II shrouded headers allow wire-to-board connection with the added security of shrouded pin contacts. MOD II headers also offer the benefit of compatibility with surface mount reflow processes.

MOD IV Cable Mount Receptacles

Available in two styles, MOD IV cable mount receptacle housings accept MOD IV/V crimp snap-in contacts, providing connection to the MOD II shrouded headers and the MOD II breakaway pin header family. Complete with a range of accessories including keying and retention plugs, this range of receptacles offer reliable and cost effective wire-to-board connection. Contacts suitable for wire sizes 20-32AWG (0.032mm² to 0.56mm²) are available with a range of plating finishes in standard or high contact pressure variants.

MOD IV Shunt Connectors

The shunt connector provides quick and easy programming of electronic circuits. Supplied in strips they can be broken off as required, or may be supplied in loose piece form. The open top design allows the use of a test probe while in-circuit.

MOD II Low Cost Line Breakaway Pin Headers

Straight, Single Row 0.63mm Square Post

Specification:

- Housing** - Green polyester, glass filled,
UL 94V-0 rated
- Posts** - Phosphor bronze, plated as follows:
- Plating A** - Contact Zone (Area F) 0.8 µm
gold over 1.3 µm nickel
- Soldering Zone 3 µm min. tin
over 1.3 µm nickel
- Plating B** - 2 µm min. tin over 1.3 µm nickel

MOD II Surface Mount Breakaway Pin Headers

Straight, Single Row 0.63mm Square Post - End Stackable

Specification:

Housing and pick & place cap - PCT GV Black

Posts - Phosphor bronze, plated as follows:

- Contact Zone (Area F) 0.8 µm gold over 1.3 µm nickel
- Soldering Zone 2.5 µm min. tin over 1.3 µm nickel

Packaging - Tape & reel

Mating Connectors:

HV100 PCB Receptacles - Pages 24-28
HV190 PCB Receptacles - Page 29
MOD IV Receptacle Housings - Page 34

Technical Documents:

Product Specification - 108-18012

MOD II ACTION PIN Breakaway Pin Headers

Straight 0.63mm Square Post

Specification:

Housing

- Polyester, glass filled, green
- UL 94V-0 rated

Posts

- Phosphor bronze, plated as follows:

Plating A

- Contact Zone (Area F) 0.1 μ m gold, over 0.7 μ m palladium alloy, over 1.27 μ m nickel

- Action Pin Zone 2 μ m min. tin over 1.27 μ m nickel

Plating B

- Tin over 1.27 μ m nickel

Mating Connectors:

- HV100 PCB Receptacles - Pages 24-28
- HV190 PCB Receptacles - Page 29
- MOD IV Receptacle Housings - Page 34

Technical Documents:

- Product Specification - 108-18012

HV-100 Surface Mount Receptacles, Vertical PCB Mount

Single Row, Top or Bottom Entry - End Stackable

Specification:

Housing and pick & place cap - Liquid Crystal Polymer (LCP), black, UL 94V-0 rated

Contacts - Phosphor bronze, plated as follows:

Plating A - Contact Zone 0.8 µm gold over
1.3 µm nickel
- Soldering Zone 2.5 µm tin over
1.3 µm nickel

Plating B - 2.5 µm tin

Packaging - Tape and reel

Mating Connectors:

MOD II Pin Headers - Pages 18-19 & 22-23

Technical Documents:

Product Specification - 108-19056

No. of Positions	Dimension		Part Number	
	A	B	Plating A	Plating B

MOD II High Temperature Shrouded Headers

Straight, Single Row 0.63mm Round Post

Specification:

Housing

- Polyester for high operating temp. (PCT), black, glass fibre filled

Posts

- Phosphor bronze, (Plating A) or brass (Plating B) plated as follows:

Plating A

- Contact Zone (Area F) 0.1 µm gold over 0.7 µm palladium alloy, over 1.3 µm nickel
- Soldering Zone 2 µm min. tin over 1.3 µm nickel

Plating B

- 2 µm min. tin over 1.3 µm nickel

Mating Connectors:

MOD IV/V Crimp Snap-In Receptacle Contacts

with Insulation Support

Specification:

Material - Phosphor bronze, plated as follows:

Plating A - Selectively plated 0.8 µm gold on contact area, gold flash on crimp area, with entire contact underplated 1.3 µm nickel

Plating B - Selectively plated 0.8 µm gold on contact area, with gold flash over 1.3 µm nickel on entire contact

Plating C - Selectively plated 0.8 µm gold on contact area, tin plated on crimp area, with entire contact underplated 1.3 µm nickel

Plating D - Plated 2 µm tin

For use with:

MOD IV Shunt Connectors

Specification:

Housing - Thermoplastic Polyester
UL 94V-0 rated

Contact - Beryllium Copper

Plating A - 0.4 µm gold over 1.3 µm nickel

Plating B - 1 µm gold over 1.3 µm nickel

Plating C - 2.5 µm tin

For use with:

MOD II Pin Headers -
Pages 18-19 & 22-23

	Plating A Green	Part Number Plating B Green	Plating C Black
Strip Form	142270-1	142270-5	142270-3
Loose Piece	827914-1	—	827914-3

Product Facts

- Self retaining contact system
- Rapid installation
- Connection to 0.63 x 0.63 or 0.79 x 1.57mm posts
- Flame retardant thermoplastic housings are UL 94V-0 rated
- Tin or gold plated contacts

Specification:

Current Rating	- 3 A (0.63 x 0.63mm posts) 5 A (0.79 x 1.57mm posts)
Operating Temperature	- -65 to +105°C (gold plating) -65 to +85°C (tin plating)
Contact Resistance	- 12mΩ max (gold plating) 16mΩ max (tin plating)
Insulation Resistance	- 5000 MΩ min

Locking clip connectors provide reliable and secure low cost connection for a variety of applications. Designed to mate with 0.63mm x 0.63mm or 0.79mm x 1.57mm header posts, these connectors provide permanent connection integrity with quick connect/disconnect flexibility. Their self-retaining contacts allow rapid installation without the need for additional fastening to hold contacts and/or connector housings in place. When installed, locking clip connectors are positively locked and cannot be detached by pulling on the wires. Removal of a connector is however simply achieved by pulling directly on the housing, deflecting the contact springs within the connector and releasing the posts. For non-housed individual contacts, disconnection is achieved through the use of an inexpensive extraction tool.

Locking Clip Receptacle Housings

Available in single and double row variants, housings accept the range of locking clip contacts for secure connection of multiple circuits. Stackable open ended housings permit a number of connectors to be placed side by side without loss of pitch.

Locking Clip Receptacle Contacts

Suitable for installation into Locking Clip housings or for individual wire connection, crimp snap-in contacts are offered for wire size ranges 20-30 AWG (0.05mm² to 0.56mm²) and with a choice of gold or tin plating. Contacts provide lasting high contact to post retention and are available in both loose piece, and reeled format for efficient volume production.

Locking Clip Receptacle Housings

Single Row, for 0.63mm Square Posts

Product Facts

- Receptacle assemblies preloaded with Insulation Displacement Contacts (IDC) to terminate discrete wires or 2.54mm centreline ribbon cable
- Receptacle housings accept crimp snap-in contacts to terminate discrete wires
- Headers provided for straight or right-angle mounting to be soldered onto 1.6mm printed circuit boards
- Protective header shrouds feature an integrated detent latching device
- Compliant to the CEI IEC 603-8 International Standard

Specification:

Current Rating	- 3 A max at 20°C
Contact Resistance	- 20 mΩ max (HE 13) - 30 mΩ max (HE 14)
Dielectric Withstanding Voltage	- 1000 V rms (HE 13) - 500 V rms (HE 14)
Insulation Resistance	- 5000 MΩ (HE 13) - 1000 MΩ (HE 14)
Operating Temperature	- -55°C to +125°C (HE 13) - -40°C to +100°C (HE 14)
Durability	- 400 cycles (HE 13) - 30 cycles (HE 14)
Insertion/Withdrawal Force	- 1.5 N max per contact + latching force (HE 13) - 3 N max per contact + latching force (HE 14)

A multi-contact connector range designed to reliably meet today's interconnection requirements for signal transmission in a variety of computer, telecommunications and industrial applications.

Complying fully with the CEI IEC 603-8 international standard, this wire-to-board interconnection system is composed of IDC receptacle assemblies for discrete wires or ribbon cable, receptacle housings for crimp snap-in receptacle contacts, and vertical or right-angle shrouded and polarised board-mount headers.

All products are available with a choice of gold (HE 13) or tin (HE 14) plating finishes.

IDC Receptacle Assemblies

Receptacle Housings

Single and Double Row

Specification:

Housing - Blue flame retardant glass filled polyester, UL 94V-0 rated

Mating Connectors:

HE 13 / HE 14 Shrouded Headers - Pages 44-45

Technical Documents:

Product Specification - 108-15053

Single Row

Double Row

Crimp Snap-In Receptacle Contacts

with Insulation Support

Specification:

Material - Phosphor bronze, plated as follows:

HE 13 - Selectively plated 0.8 µm gold on contact area, 2.5 µm tin on crimp area, with entire contact underplated 1.3 µm nickel

HE 14 - Plated 2.5 µm tin

Technical Documents:

Product Specification - 108-15053

Helping yourself

- If you are new to referencing our Terminals / Contacts to hand tools, we strongly recommend that you read our one page guide to selecting the right tool in our online hand tool catalogue.
- First select the category you are looking for from the left-hand menu-bar.
- Generally there will be a Brochure that will show top-level information on the range of equipment available for the category selected. Also flyers that give more detailed information for each type of equipment listed in the Brochure.
- On the Applicator and Hand Tool pages - you can search on **Terminal** part number for tooling options
Or
by **Tool** part number for more product information
- If you regularly need Hand Tool information, there is an online **Hand Tool Catalogue** that is available to view or print, but can also be printed and sent to you if more convenient. This catalogue is updated regularly, so please ensure that your version is kept up to date.
- Requesting assistance
If you can't find what you are looking for, it does not necessarily mean that there is nothing available for your application:

for cross-referencing information - contact one of our Product Information Centres (PIC), listed when making a selection from the right-hand menu box:

for more complex equipment and technical help – find your country contact by selecting from the right-hand menu box.

Local contact information is available for most countries in a one page pdf file
