

INTRODUCING SDE CRIMP

COMMERCIAL TOOL SYSTEM

We've combined all the features pioneered in our original PRO-CRIMPER hand tools with the versatility of an even more robust design to create the revolutionary SDE Crimp commercial tool system. SDE Crimp minimizes the need for multiple types of hand tools thanks to its Standard Die Envelope (SDE) die sets, which are easily interchangeable from manual to power-assisted tools depending on your needs. An enhanced tool frame also delivers greater operator comfort, efficiency and crimping quality. Available as a fully assembled tool, or with the frame (PN 2362810-1) and die set sold separately, SDE Crimp brings a new level of flexibility and performance to your crimping.
