KL & KLS Series Connectors

Category 5e & 6 Modular Jacks

CommScope KL & KLS Series Category 5e & 6 110Connect Modular Jacks have a slim profile and are compatible with many "non-AMP NETCONNECT®" style faceplates. Universal wiring labels permit termination to either T568A or T568B wiring patterns. Cables may be dressed at either 180° (rear) or 90° (either side) for added flexibility. Patented bend-limiting strain relief may also be used to reduce stress on cable at point of termination and is included with each unshielded modular jack. Jacks can be terminated with either an SL series modular jack termination tool 1725150-1 or a standard 110 punch-down tool.

CommScope KL & KLS Series Category 5e & 6 110Connect Modular Jacks meet or exceed ANSI/TIA-568-C.2 and ISO/IEC 11801 requirements for Enhanced Category 5/Class D and 6/Class E component performance. The AMP NETCONNECT® Enhanced Category 5/6 System complies with all of the performance requirements for current and proposed applications such as Gigabit Ethernet (1000BASE-TX), 10 and 100BASE-Tx, token ring, 155 Mbps ATM, 100 Mbps TP-PMD, ISDN, analog and digital video, and analog and digital voice (VoIP).
