# 5400 Series
Ø.315″ (8.0mm)
LED Panel Mount Indicator

A two-piece unit consisting of a lens and the housing-LED assembly. Simple, fast installation. Available in colors: Red, Amber, Green and Yellow.

LED COLOR OPTIONS

MOUNTING HOLE Ø 0.315

WIDE VIEWING ANGLE

Applications

- Industrial
- Transportation
- Food Services
- People Movers
- Automation and Control
- Status indication
- Professional Electrical Appliance
- Electro Medical Devices
- Aircraft/Military Instrumentation

Key Features

- For panel hole diameter: 0.315″ (8.0mm)
- Low profile, damage-resistant lens
- Panel thickness: .062″ to .125″ (1.6 to 3.2mm)
- Available in four single illumination colors: red, green, yellow, amber
- Wide viewing angle
- Simple and fast installation
- Discharge protection
- 8mm panel mounting LED Indicator
- Unique design in a two piece unit
- For custom cable length, voltage, connectors, for colors, contact VCC
- RoHS and REACH Compliant

Notes:
1. All dimensions are in inches [millimeters]
2. Tolerance is ± 0.25″ unless otherwise noted.
3. The specifications, characteristics and technical data described in the datasheet are subject to change without prior notice.

Product Specifications

Materials	
Housing	Natural Nylon
Lens	Polycarbonate
Wire Leads	24 AWG PVC (105oC) 4.4/4.8″ long, stripped .430/.570″
Heat Shrink Tubing	Black, Polyolefin VW-1 600V

Installation Specifications	
Mounting Hole	.312/.317″ (7.9/8.1mm)
Panel Thickness	.062 to .125″ (1.6/3.2mm)
Operating Temperature	-25°C/+85°C (-13°F/+185°F)
Anode	Red Lead

Installation Instructions

- The panel mount LED indicator light consists of one lens and one body in lead wires terminations.
- The fast installation is provided by inserting the lens into mounting hole in the front display panel and snapping the housing assembly onto the lens from the rear.
- Allows pre-wiring into the circuit and testing before installation.
