

Part Number #110579

Wakefield- Vette's high performance heat pipes are used in many applications in various industries. Some applications include: Automotive, Consumer Electronics, LED Lighting, Medical, High Power Semi Conductors, Aerospace, & Defense.

In these applications the heat pipe is used to transfer heat with minimal temperature difference from one area to another or across a specific surface material.

Tube Material: Copper

Wick Structure: Powder Sintered Copper

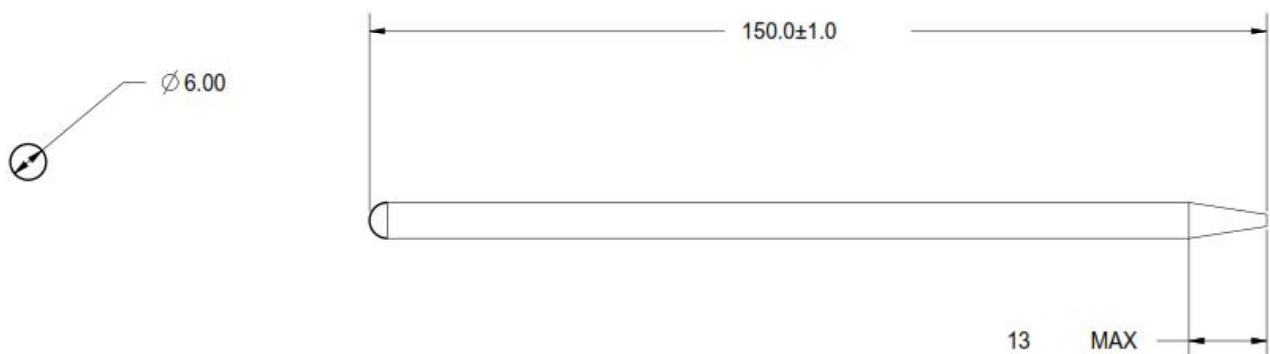

Light Weight

Versatile with high thermal performance

$Q_{max} = 60W$

Part Number	Description
110579	Straight Sintered 6x0.3x150mm

Mouser Electronics
