Nonmetallic Raceway with Twin Snap Cover System
Available Factory Prewired

5400 Series™ Raceway provides wire and cable management for data, voice, video, and power applications. For school and office applications, this is an ideal solution for providing flexibility and accessibility of wire and cable.

5400 Series Raceway with Twin Snap Cover System.

FEATURES & BENEFITS

■ **Large cable capacity in a low profile design**. Accommodates needs now and in the future.

■ **Twin Snap cover**. Complete segregation of access to power and low voltage services for installation flexibility.

■ **Corner drop feed**. Provides solution for feeding horizontal runs of raceway.

■ **2" (51mm) bend radius compliant fittings**. These fittings snap onto overlapping raceway base and cover for an aesthetic installation. Fittings are UL verified for a 2" (51mm) bend radius and exceed the recommendations of TIA/EIA 569-A. They provide cable protection in lay-in and pull through cable installations.

■ **5400TB available prewired**. Manufactured to specified job site lengths, raceway comes completely prewired, ready to install. Jobs can be packaged by area, floor, or building and shipped per job site requirements.

■ **Electrical device identification for prewired jobs**. Eliminates guesswork and circuit tracing to speed additions and renovations.

■ **A/V compatible**. 5507 Series Faceplates provide A/V compatibility for 5400 Series Raceway installations.

■ **Pre-punched mounting holes**. Faster and easier raceway installation.

■ **Device mounting in-line, offset or both**. Offers flexibility and up to three separate services at the same location.

■ **Made of PVC material**. Lightweight and easy to cut. Meets UL flammability requirements. UL Listed for up to 600V.

■ **Ivory and white finishes**. Blend with any decor. Custom colors available. Consult factory for more information. Paintable using latex paint.

■ **Communication connectivity options**. Accepts industry standard and proprietary devices from a wide range of manufacturers to provide a seamless and aesthetically pleasing interface for voice, data, audio, and video applications at the point of use.

■ **UL and cUL Listed component raceways.** File E90378 Guide RJTX, Fittings: File E90377 Guide RJYT. Meets Article 388 of NEC and meets Section 12-600 of CEC.
