

Plug-In Outlet Center® Units for use in Healthcare

The healthcare environment offers unique challenges for powering equipment in patient care areas. The medical equipment used in emergency rooms and surgical suites is constantly changing based on the needs of the patient. ULM Series of Medical Grade Plug-in Outlet Center Units (PIOCs) offer medical professionals quick and flexible power delivery in these demanding patient care environments.

For those areas of your healthcare facility that are not used for patient care, such as Admissions, Human Resources, Purchasing, etc., we offer ULBH Series Special Use PIOCs.

The ULM and ULBH Series offer both flexibility and durability to keep your power infrastructure healthy and strong. So remember Legrand when you are seeking innovative solutions to your ever changing power infrastructure needs.

ULM620-6 Medical Grade Plug-In Outlet Center Unit.

FEATURES & BENEFITS

ULM Series Plug-In Outlet Center Units* feature:

- **Safety Certified by TUV Rheinland.** Complies with UL60601-1 and UL1363A. Can be used in patient care areas in compliance with Article 517 of the National Electrical Code (NEC). Allows for maximum flexibility when powering patient care equipment.
- **Redundant bonding of the enclosure as required by UL60601-1.** Assures an ultra reliable grounding path is provided. Proper grounding of medical equipment is essential for patient well-being.
- **Rugged aluminum housing.** Withstands the rigors of the healthcare environment assuring a long service life. End caps include mounting ears to easily mount the unit to hospital carts or other equipment
- **Pass & Seymour® Hospital Grade Receptacles.** Superior quality receptacles are used to ensure reliable connections and long life.
- **15A and 20A configurations.** 20A configuration meets the ever increasing power demands of medical equipment. Expand your capabilities without having to expand your infrastructure.
- **IV Pole Mounting Bracket Available.** Cat. No. IVPM-100 allows for easy mounting and dismounting to 1" diameter IV poles. Mounts and dismounts much faster than typical thumb screw brackets, increasing productivity during cleaning cycles.
- **Safety Caps.** Safety Caps (5 pieces) are included to prevent unauthorized connection of electrical equipment.

ULBH Series Plug-In Outlet Center Units feature:

- **Safety Certified by UL.** Complies with UL1363, the Standard for Relocatable Power Taps. Provides full protection for staff personnel, while affording maximum flexibility.
- **Rugged aluminum housing.** Withstands the rigors of the healthcare environment assuring a long service life.
- **Pass & Seymour® Hospital Grade Receptacles.** Superior quality receptacles are used to ensure reliable connections and long life.
- **15A configuration.** Provides more than adequate capacity for non patient care areas.

Close-up of Safety Cap provided with ULM Series PIOCs.

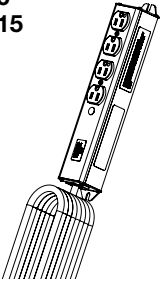

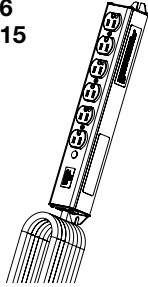

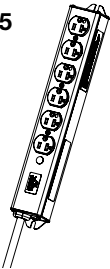

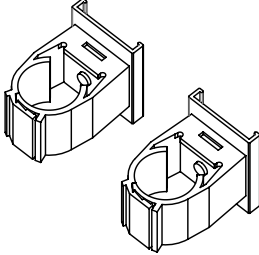

* As with all Medical Electrical Devices, Wiremold® ULM Series PIOCs should only be used under the direction and supervision of your local Health & Safety Officer.
