## Bring Technology to the Workgroup

Vista™ Architectural Columns provide the wiring capabilities you need without compromising the aesthetics of your interior decor to create the wiring delivery solution to complement your environment. Vista Architectural Columns offer the large capacity necessary to feed numerous workstations or supply a large area's power, communication, or audio/video requirements. The patented column design provides multiple feed options for wire and cable.

Vista™ Point5 Architectural Columns provide power, voice, data and audio/visual connections without disrupting conference spaces. The patented design provides channels for concealing wiring required for multiple services through a single access point. Clear access to outlets and jacks keeps the floor free from running cords and cables. Make the most of any meeting space with a Vista Point5 Architectural Column.

## Features & Benefits

- **Flexibility.** Choose from a range of center panels, extensions, and frames to accommodate your aesthetic and capacity requirements.
- **Frame shapes.** Select either square or rounded end channels to enhance any interior.
- **Device compatibility.** Compatible with a wide range of standard power and communications devices.
- **A/V compatibility.** Accepts Extron® Electronics, and Ortronics® audio/video devices.
- **Furniture feed options.** Modular furniture feeds are available at the beltline and ground level.

- **Paneled extension.** Extension kit accommodates many ceiling heights and comes with a center panel.
- **cULus Listed Multioutlet Assemblies**. File E15191, Guide PVGT. Meets Article 380 of NEC.
- **Height Options.** Choice of heights to accommodate different work surface heights
- **Vertical Barrier.** This internal barrier permits electrical and communications devices to be installed next to each other without interference.
**Vista Architectural Columns enhance any decor and provide maximum flexibility for any workplace environment.**
**Vista Point5 Columns make accessing power, A/V, communication and low voltage a breeze.**

| **One Extensionl Round or Square** | 4 | 6 | 10 | 16 | 22 |

*Table title: VISTA ARCHITECTURAL COLUMN WIRE FILL CAPACITY FOR POWER*

**There are four primary components of a Vista column. These are:**

- **Frame** - This comprises the primary Vista "body" and forms the outer edge and bottom portion of the column. Frames are available in both large and small sizes, as well as many different color options. These colors are suggestions only. Almost any paint color can be matched if a chip is provided.

- **Panel** – This is the center area shown on the front and back of the Vista. Panels are also available in various aluminum finishes. Finish and material options are available on page page 6.

- **End Channel** – Vista columns are available with either round or square end channels. Round end channels are indicated by "66" and square by "77" in the part number.

- **Device Plates** – The vista line includes device plates to enable power, communications, and A/V connections. Device plate information begins on page 7. In addition, 2' Extension Kits are available to attach to the top of a Vista column for higher ceiling heights. These can be found on page 9.

Vista architectural columns offer complete customization – from panel color to end channel shapes to device plates. The following pages provide details on how to select and specify a completely custom Vista column.
## Vista Architectural Column Frame Options
**Small Frame**

6000 Series, tempered aluminum with heavy gauge steel cross supports with two (2) 3/4" and 1" concentric trade size KOs. Accepts 4 3/4" [121mm] wide center panel.
**Round End Channel**

2"
[51mm]

3 13/16"
[97mm]

6000 Series, tempered aluminum. Satin anodized finish or painted. Channel snaps onto frame.

**Large Frame**

6000 Series, tempered aluminum with heavy gauge steel cross supports with four (4) 3/4" and 1" concentric trade size KOs. Accepts 9 1/4" [235mm] wide center panel.

**Square End Channel**

2"
[51mm]

3 13/16"
[97mm]

6000 Series, tempered aluminum. Satin anodized finish or painted. Channel snaps onto frame.

**Height accommodates maximum 10' [3m] ceiling, see page 9 for Extension Kit.**

Vista architectural columns offer complete customization – from panel color to end channel shapes to device plates. The following pages provide details on how to select and specify a completely custom Vista column.
## Vista Architectural Columns

**VFS662345CMGYP**

**Vista Column –** Small profile frame, round end channels, anodized aluminum finish. Accepts all adapters. Two 20A duplex receptacles located 27" [686mm] above floor. Includes one VSCM plate and one VSFF plate at bottom back side of pole. Dimensions: 10'6" x 8 29/32" x 3 25/32" [3.2m x 276mm x 96mm].
**VFL662345FFZZP**

**Vista Column –** Large profile frame, round end channels, anodized aluminum finish. Furniture feed. Includes one VLFF plate at bottom back side of pole. Dimensions: 10'6" x 13 3/8" x 3 25/32" [3.2 m x 340mm x 96mm].

**VFL662345CMGYP**

**Vista Column –** Large profile frame, round end channels, anodized aluminum finish. Accepts all adapters. Three 20A duplex receptacles located 27" [686mm] above floor. Includes one VSCM plate and one VLFF plate at bottom back side of pole. Dimensions: 10'6" x 13 3/8" x 3 25/32" [3.2m x 340mm x 96mm].

**VES66234524**

**Small Vista Column Extension –** Small profile 24" [610mm] frame extension, round end channels, anodized aluminum finish.

**VEL66234524**

**Large Vista Column Extension –** Large profile 24" [610mm] frame extension, round end channels, anodized aluminum finish.

**VFS662345FFZZP**

**Vista Column –** Small profile frame, round end channels, anodized aluminum finish. Furniture feed. Includes one VSFF plate at bottom back side of pole. Dimensions: 10'6" x 8 29/32" x 3 25/32" [3.2m x 226mm x 96mm].
