

# LUXEON XR-5050 HE

## New Form-Factor Compatible with Off-the-Shelf Optics

LUXEON XR-5050 HE products are standard integrated modules compatible with off-the-shelf drivers, optics and heat sinks. They are constructed with MCPCB substrates for thermal efficiency and mechanical robustness, and eliminate engineering design costs, tooling costs, and material inventory costs. This versatile building-block approach simplifies system integration and accelerates time-to-market.

### FEATURES AND BENEFITS

- Efficacy and Luminous flux of up to 184lm/W typ and 8600lm available
- Available CCT/CRI combinations: 70CRI (2200K, 2700K, 3000K, 4000K, 5000K and 5700K), 80CRI (2700K, 3000K, 4000K, 5000K and 5700K) and 90CRI (5700K)
- Superior board level color control of  $\leq 3$ SDCM
- MCPCB for efficient heat dissipation and mechanical robustness
- UL 8750, ENEC, CE, UKCA compliance
- 5-year limited guarantee

### PRIMARY APPLICATIONS

- High Bay
- Low Bay
- Sport Lights
- Outdoor Area Lights

# General Product Information

## Product Test Conditions

LUXEON XR-5050 HE modules are tested using a 20ms monopulse (MP) at 1050mA, case temperature T<sub>c</sub> of 85°C.

## Part Number Nomenclature

Part numbers for LUXEON XR-5050 HE follow the convention below:

L 2 2 5 – **A A B B 0 C C M D D 0 1 0**

Where:

- A A** – designates nominal ANSI CCT (22=2200K, 27=2700K, 30=3000K, 40=4000K, 50=5000K, 57=5700K)
- B B** – designates minimum CRI (70=70CRI, 80=80CRI and 90=90CRI)
- C C** – designates number of emitters (24=24 emitters)
- D D** – designates internal Lumileds program code
- 1 0** – designates internal Lumileds program code

Therefore, a LUXEON XR-5050 HE 4000K 80CRI with 24 emitters, will have the following part number:

L 2 2 5 – **4 0 8 0 0 2 4 M L U 0 1 0**

## Lumen Maintenance

Please contact your local Sales Representative or Lumileds Technical Solutions Manager for more information about the long-term performance of this product.

## Environmental Compliance

Lumileds LLC is committed to providing environmentally friendly products to the solid-state lighting market. LUXEON XR-5050 HE is compliant to the European Union directives on the restriction of hazardous substances in electronic equipment, namely the RoHS Directive 2011/65/EU and REACH Regulation (EC) 1907/2006. Lumileds LLC will not intentionally add the following restricted materials to its products: lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB) or polybrominated diphenyl ethers (PBDE).

# Performance Characteristics

## Product Selection Guide

Table 1. Product performance of LUXEON XR-5050 HE at 1050mA, Tc=85°C.

| NOMINAL CCT | MINIMUM CRI <sup>[1, 2]</sup> | LUMINOUS FLUX <sup>[1]</sup> (lm) |         | TYPICAL LUMINOUS EFFICACY (lm/W) | ENERGY EFFICIENCY CLASS <sup>[3]</sup> | PART NUMBER        |
|-------------|-------------------------------|-----------------------------------|---------|----------------------------------|----------------------------------------|--------------------|
|             |                               | MINIMUM                           | TYPICAL |                                  |                                        |                    |

| 5000K       | 80                            | 7661                              | 8025    | 171                              | D                                      | L225-5080024MLU010 |
| 5700K       | 80                            | 7578                              | 7914    | 168                              | D                                      | L225-5780024MLU010 |
| 5700K       | 90                            | 6396                              | 6834    | 145                              | E                                      | L225-5790024MLU010 |

**Notes for Table 1:**

1. Lumileds maintains a tolerance of  $\pm 2$  on CRI and  $\pm 7\%$  on luminous flux measurements.
2. Typical CRI is approximately 2 points higher than the minimum CRI specified, but this is not guaranteed.
3. Energy efficiency class as specified in Commission Delegated Regulation (EU) 2019/2015. The available range of energy efficiency classes is A-G.

## Electrical and Thermal Characteristics

Table 2. Electrical characteristics for LUXEON XR-5050 HE at 1050mA, Tc=85°C.

| PART NUMBER        | FORWARD VOLTAGE <sup>[1]</sup> (V <sub>f</sub> ) |         |         |
|--------------------|--------------------------------------------------|---------|---------|
|                    | MINIMUM                                          | TYPICAL | MAXIMUM |
| L225-xxxx024MLU010 | 42.0                                             | 44.8    | 45.2    |

**Notes for Table 2:**

1. Lumileds maintains a tolerance of  $\pm 0.1V$  on forward voltage measurements.

## Board Level Color Control

Table 3. Board Level Color Control for LUXEON XR-5050 HE.

| PART NUMBER        | COLOR CONTROL |
|--------------------|---------------|
| L225-xxxx024MLU010 | 3SDCM         |

# Absolute Maximum Ratings

Table 4. Absolute maximum ratings for LUXEON XR-5050 HE.

| PARAMETER                                             | MAXIMUM PERFORMANCE                                       |
|-------------------------------------------------------|-----------------------------------------------------------|
| DC Forward Current <sup>[1, 2]</sup>                  | 2000mA                                                    |
| Peak Pulsed Forward Current <sup>[1, 3]</sup>         | 4000mA                                                    |
| Maximum Working Voltage <sup>[4]</sup>                | 250Vdc                                                    |
| ESD Sensitivity (ANSI/ESDA/JEDEC JS-001-2012)         | Class 2                                                   |
| Operating Case Temperature at Tc point <sup>[1]</sup> | -40 to 85°C                                               |
| LED Storage Temperature                               | -40°C to 105°C                                            |
| Reverse Voltage ( $V_{reverse}$ )                     | LUXEON LEDs are not designed to be driven in reverse bias |

**Notes for Table 4:**

1. Proper current derating must be observed to maintain the Tc temperature below the maximum allowable Tc temperature.
2. Residual periodic variations due to power conversion from alternating current (AC) to direct current (DC), also called "ripple," are acceptable if the following conditions are met:
  - The frequency of the ripple current is 100Hz or higher
  - The average current for each cycle does not exceed the maximum allowable DC forward current
  - The maximum amplitude of the ripple does not exceed the maximum peak pulsed forward current
3. At <=50% duty cycle with pulse width of 5ms.
4. Basic insulation between live parts on the LED module and mounting surface or touchable parts when mounted in a luminaire for SELV and other than SELV operations has been evaluated according to IEC 62031.

## Application Information

Table 5. Approbation for LUXEON XR-5050 HE.

| ITEM                   | COMPLIANT TO                 |
|------------------------|------------------------------|
| Test and Certification | CE                           |
|                        | UKCA                         |
|                        | ENEC                         |
|                        | UL8750 (UL file no. E335118) |
| Declaration            | RoHS                         |
|                        | REACH                        |

## Recommended Wire

Table 6. Recommended Wire for LUXEON XR-5050 HE.

| RECOMMENDED WIRE | INSULATOR DIAMETER | STRIP LENGTH |
|------------------|--------------------|--------------|
| AWG 26-18        | Maximum 2.5mm      | 4mm to 5mm   |

# Characteristic Curves

## About Lumileds

Companies developing automotive, mobile, IoT and illumination lighting applications need a partner who can collaborate with them to push the boundaries of light. With over 100 years of inventions and industry firsts, Lumileds is a global lighting solutions company that helps customers around the world deliver differentiated solutions to gain and maintain a competitive edge. As the inventor of Xenon technology, a pioneer in halogen lighting and the leader in high performance LEDs, Lumileds builds innovation, quality and reliability into its technology, products and every customer engagement. Together with its customers, Lumileds is making the world safer, better and more beautiful—with light.
