LUXEON CoB Core Range PW Gen 5

Engineered for vibrant colors

LUXEON CoB Core Range PW was built for applications that need the highest quality of light combined with market leading performances. Its beautiful color transforms areas into vibrant spaces. Above all, LUXEON CoB Core Range PW has a robust, long life span and fits easily into luminaire designs.

General Product Information

Product Test Conditions
LUXEON CoB Core Range PW LEDs are tested and binned with a DC drive current specified below at a junction temperature, $T_j$, of 85°C:

600mA  –  L2C5-AABB1205H13P0
900mA  –  L2C5-AABB1208H15P0
900mA  –  L2C5-AABB1210H15P0
1200mA –  L2C5-AABB1211H19P0

Part Number Nomenclature
Part numbers for LUXEON CoB Core Range PW follow the convention below:

L  2  C  5  –  A  A  B  B  C  C  C  C  D  E  E  F  F

Where:

A  A  –  designates nominal CCT (30=3000K, 35=3500K, 40=4000K)
B  B  –  designates minimum CRI (80=80CRI, 90=90CRI)
C  C  C  C  –  designates product configuration (example: 1205, 1208, 1210, 1211)
D  –  designates options for product specification
E  E  –  designates light emitting surface (LES) size (13=13mm, 15=15mm, 19=19mm)
F  F  –  designates options for product specification

Therefore, the following part number is used for a LUXEON CoB Core Range PW 3000K, 90CRI, 1208, Gen 5, 15mm LES:

L  2  C  5  –  3  0  9  0  1  2  0  8  H  1  5  P  0

Lumen Maintenance
Please contact your local Sales Representative or Lumileds Technical Solutions Manager for more information about the long-term performance of this product.

Environmental Compliance
Lumileds LLC is committed to providing environmentally friendly products to the solid-state lighting market. LUXEON CoB Core Range PW is compliant to the European Union directives on the restriction of hazardous substances in electronic equipment, namely the RoHS Directive 2011/65/EU and REACH Regulation (EC) 1907/2006. Lumileds LLC will not intentionally add the following restricted materials to its products: lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB) or polybrominated diphenyl ethers (PBDE).

Use Limitations
LUXEON COB Core Range PW Gen 5 90CRI is for use in commercial illumination products and cannot be use for medical equipment, airfields, runways, aircraft, stage and studio applications, or for consumer products sold through retailers, e-commerce or DIY and homebuilder channels. LUXEON COB Core Range PW Gen 5 90CRI is recommended for use in dry environments (not for use in wet environments).

</tbody>
</table>

Notes for Table 1:
1. Light Emitting Surface (LES) is the inner diameter (phosphor area) inside the dam.
2. Lumileds maintains a tolerance of ±2 on CRI and ±6.5% on luminous flux measurements.
3. Typical CRI is approximately 2 points higher than the minimum CRI specified, but this is not guaranteed.
4. R9 value of 90CRI products is >50.

Optical Characteristics

<td>-40°C to 120°C</td>
</tr>
<tr>
<td>Reverse Voltage ($V_{reverse}$)</td>
<td>LUXEON LEDs are not designed to be driven in reverse bias</td>
</tr>
</tbody>
</table>

Notes for Table 4:
1. Proper current derating must be observed to maintain the junction temperature below the maximum allowable junction temperature.
2. Residual periodic variations due to power conversion from alternating current (AC) to direct current (DC), also called “ripple,” are acceptable if the following conditions are met:
   - The frequency of the ripple current is 100Hz or higher
   - The average current for each cycle does not exceed the maximum allowable DC forward current
   - The maximum amplitude of the ripple does not exceed 20% of the maximum allowable DC forward current.

Packaging and Labeling Information

LUXEON CoB Core Range PW LEDs are packaged in tubes then in a carton box. Each tube contains a specified number of LEDs. The LEDs in each tube come from a single category code, ensuring they are all well-matched for light output, color, and forward voltage. Each tube contains a rubber stopper at one end. The tube label has both alphanumeric and bar code information. The carton boxes have printed information providing part numbers with CAT codes that indicate luminous flux, color and forward voltage bins.

About Lumileds

Companies developing automotive, mobile, IoT and illumination lighting applications need a partner who can collaborate with them to push the boundaries of light. With over 100 years of inventions and industry firsts, Lumileds is a global lighting solutions company that helps customers around the world deliver differentiated solutions to gain and maintain a competitive edge. As the inventor of Xenon technology, a pioneer in halogen lighting and the leader in high performance LEDs, Lumileds builds innovation, quality and reliability into its technology, products and every customer engagement. Together with its customers, Lumileds is making the world better, safer, more beautiful—with light.
