

POSITIVE ACTION NON-TEASIBLE TOGGLE

The TE series is a MIL qualified, snap-action, non-teasible, positive make and break, panel mount toggle switch.

The positive action mechanism assures that the switch will actuate even when actuated very slowly. A silicone seal protects the contact area from contaminants such as dust, moisture and sand. All metal components are corrosion resistant and designed to exceed all military requirements.

This environmentally sealed switch is available in single and double pole configurations with 15/32 or 1/4-40 bushings. The TE series is ideal in applications for dry circuits, low level and power switching applications.

Features:

- **Positive action miniature toggle**
- **Wiping action contacts**
- **Momentary & maintained toggle action**
- **Panel mount**
- **Solder lug termination**
- **Single & double pole**
- **Sealed per MIL-DTL-8834**
- **MIL qualified MS90310-211/221/231/271/311
MS90311-211/221/231/271/311
