

DK02S/D SERIES

2W DC/DC CONVERTER, DIP Package, High Isolation

- Efficiency up to 75%
- Standard DIP-16 Package
- Reinforced Insulation rated for 300VAC Working Voltage
- High Isolation Voltage 4000VAC
- Operating Temperatue Range –25°C to +80°C
- Low isotation Capacitance
- Low Leakage Current
- Lead free, RoHs Compliant
- 3 Years Product Warranty

The DK02S/D series are miniature, DIP Package, isolated 2W DC/DC converters with ultra- high 4,000VAC isolation . It offers low leakage current and allows a wide operating temperature range of –25°C to +80°C. These isolated DC/DC converters are the latest offering from a world leader in power systems technology and manufacturing — Delta Electronics, Inc. With creative design technology and optimization of component placement, these converters possess outstanding electrical and thermal performance, as well as extremely high reliability under highly stressful operating conditions

| Model List | | | | | | | | | |

Notes

- 1 Specifications typical at Ta=+25°C, resistive load, nominal input voltage and rated output current unless otherwise noted.
- 2 Ripple & Noise measurement bandwidth is 0-20MHz.
- 3 These power converters require a minimum output loading to maintain specified regulation, operation under no-load conditions will not damage these modules; however they may not meet all specifications listed.
- 4 All DC/DC converters should be externally fused at the front end for protection.
- 5 That "natural convection" is about 20LFM but is not equal to still air (0 LFM).
- 6 Specifications subject to change without notice.
