Description

This document is an installation and the characteristics of Delta HEF series. Before installing the unit, please read this manual thoroughly, and following the instructions contained in it. The document is the exclusive property of Delta Electronics, Inc. it should not be distributed, reproduced, or any other format without prior permission of Delta. Specifications are subject to change without notice.

Packing & Shipping

The filter fan unit is a precision instrument; it should be handled and transported with care. Do not stand on the box, or place heavy objects on top of the box. Pay attention to the below icons on the package.

Safety Notes

Please read the safety notes carefully before installing the filter fan unit, and be sure to install it correctly. After completing installation, check that the unit operates properly during start-up operation.

Meaning of WARNING and CAUTION notices:

Warning:

Failure to follow these instructions properly may result in personal injury or loss of life.

Caution:

Failure to observe these instructions properly may result in property damage or personal injury, which may be serious depending on the circumstance.

Part no.:

Delta model no.: HEF070 / HEF160 / HEF500 Series

 Warning:

1. Installation work and electrical wiring should be done only by qualified personnel in accordance with all applicable codes, standards and national wiring regulations.
2. Use this unit only in the manner intended by the manufacturer. If you have questions, please contact the manufacturer.
3. Install the filter fan in accordance with the instructions in this installation manual. Improper installation may result in water leakage, electric shock or fire.
4. Make sure that all wiring is secured, that specified wires are used, and there is no strain on the terminal connections or wires.
5. Before serving or cleaning unit, disconnect power supply.
6. When cutting or drilling into enclosure, do not damage electrical wiring or equipment.
7. Be sure to use only the specified accessories and parts to complete installation.
8. This appliance is intended for use only by qualified personnel.

 Caution :

1. Do not block the air inlets or exits.
2. To avoid injury, do not touch the air inlet or fan blades of the unit.
3. Watch your step at the time of filter cleaning or air grille inspection.
4. This appliance is not to be used by any persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given proper supervision or instruction.
5. Children should be prevented from playing with the appliance.

1. Product Instruction

1-1. General Description

HEF070A / HEF160A / HEF500A Series is a AC Filter Fan unit with 115 VAC power input, HEF070B / HEF160B / HEF500B Series is a AC Filter Fan unit with 230 VAC power input, The filter fan revolutionizes the cabinet climate control. HEF Series filter fans are equipped with high efficiency fiber structure, reliably remove a wide variety of dust particles.

1-4. Mounting Plane Cutout

mm (inch)	HEF070 Series	HEF160 Series	HEF500 Series
X	204 (8.03)	254 (10.0)	323 (12.7)
Y	204 (8.03)	254 (10.0)	323 (12.7)
Z1	23 (0.91)	24 (0.94)	24 (0.94)
Z2	84 (3.31)	106 (4.17)	131 (5.16)
A*	177 (6.97)	224 (8.82)	292 (11.5)
B*	177 (6.97)	224 (8.82)	292 (11.5)

*For material thicknesses up to 2+1 mm for
thickness of material > 2 mm ≤ 3 mm.

1-5. Configuration & Maintenance

1. Cutout hole in enclosure using the appropriate cutout size for the model you purchased.
2. Deburr the cutting edge.
3. Insert fan or grille and push into opening until all four corners be snapped and locked.
See Page 10.
4. Wire the filter fan following the Wire Diagrams on page 17 for appropriate installation.

NO.	Q'TY	DESCRIPTION
1	1	Exhaust Grille
2	1	Fan nozzle
3	1	Axial Fan
4	1	Fan Guard

Part no.:

2. Environmental Condition

- **Operating Temperature**
-15°C ~ +55 °C (14 °F ~ +131 °F)
- **Storage Temperature**
-40 °C ~ +70 °C (-40 °F ~ 158 °F)
- **Operation Humidity**
Internal air : 0 ~ 80 % RH, non-condensing
- **Ingress Protection Rating**
IP54 (IEC60529) on external side
UV-resistant plastic

3. Reliability Table

Test item	Condition
Vibration Resistance	ISTA 2A / ISTA 2B
High Temperature Exposure	IEC 60068-2-14 test Na
Low Temperature Exposure	IEC 60068-2-14 test Na
Temperature Cycle	IEC 60068-2-14 test Nb
Ingress protection (external side)	IEC 60529 IP54 / NEMA 12
Salt Fog Test	IEC 60068-2-11
Package bump	ISTA 2A
Surge Voltage	IEC 61000-4-5, EN 55024
Electrostatic discharge	IEC 61000-4-2, EN 55024
Electrical Fast Transient	IEC 61000-4-4, EN 55024
Abnormal Voltage	

4. Safety Certification

Test item	Condition
CE Declaration of Conformity	2014/30/EU & 2014/35/EU & RoHS
NEMA / UL / cUL	UL508 Type 12

5. Accessory

TBD

Part no.:

Delta model no.: HEF070 / HEF160 / HEF500 Series

6. Installation Notice

Verify the location of the enclosure with filter fan installed has a minimum clearance of 7.00 inch (178 mm).

7. Reclaim

At the end of the unit working life, the produce must not be disposed of as urban waste. It must be taken to a special local authority differentiated waste collection center or to a dealer providing this service.

8. Versions

REV.	DESCRIPTION	ISSUE DATE
00	First SPEC release.	2020.05.07
01	1. Add part number list on section 1.1. 2. Remove section 8. 3. Add filter key data.	2020.07.24
