# EKI-9508E-PH EKI-9508E-PL

# EN50155 8-Port M12 Unmanaged Ethernet Switch 72/96/110 $V_{\text{DC}}$ EN50155 8-Port M12 Unmanaged Ethernet Switch 24/48 $V_{\text{DC}}$

#### Features

- Complies with EN50155
- 8 M12 D-coded 10/100Mbps PoE ports
- Power input EKI-9508E-PH: 72/96/110 V<sub>DC</sub> EKI-9508E-PL: 24/48 V<sub>DC</sub>
- Operating Voltage
   EKI-9508E-PH: 50.4~137.5 V<sub>DC</sub>
   EKI-9508E-PL: 16.8~60 V<sub>DC</sub>
- IEEE802.3at PoE+ to supply 30 W of power
- IEEE802.3af PoE to supply 15.4 W of power
- M12 connector with IP40 protection
- Operating temperature range -40 ~ 70°C

# C € FCC

#### Introduction

The EKI-9500 series switch is designed for railway application with rugged and high EMC performance, being suitable for networking solution for rolling stock and wayside applications. The EKI-9500 series provides M12 connectors for Ethernet/ console/ relay/ power-input connections to ensure tight & robust connectivity, and thus to guarantee reliable operation against environmental disturbances such as vibration and shock on train.

The EKI-9508E-PH & EKI-9508E-PL are PoE Ethernet switches that provide 8 x Fast Ethernet M12 D-code port interface with IEEE802.3af/at PoE(Power Over Ethernet) function. The PoE ports can provide up to 90Watts power budget for P.D. devices (such as camera, IP-phone and wireless access point). The EKI-9508E-PH/PL features "slim" designs which can be easy deployed with its slender size and make the network deployment easier in crowded carriage/ cabinet.

Power
