

Assembly Instructions

1) Slide the ferrule onto the cable. Strip the cable to the dimensions shown. Take care not to nick the centre conductor or braid.

A = 7.5mm
B = 5mm
C = 4mm

2) Crimp the contact onto the centre conductor.

3) Insert the contact into the body and ensure that the contact captivates. Make sure that the braid is on the outside of the mandrel. Slide the ferrule over the braid until the ferrule butts up against the body. Crimp the ferrule using the correct tool for the connector.

Connector Part Number	Stripping Tool Part Number	Crimp Tool Part Number	Hex Size
