Dot matrix printable self-laminating vinyl has a smooth surface, allowing for the highest resolution and print contrast using an impact printer. The material is a conformable vinyl, allowing it to wrap and stay around wires and cable.

The acrylic-based adhesive bonds to a wide variety of substrates and will remain in place long term.

Tabtag dot matrix labels are specifically made for use in dot matrix printers for fast and easy printing.

Labels come with a pin-feed margin to ensure that they can easily be loaded into any dot matrix printing system.
