

SAFETY DATA SHEET

Soder-Wick® No Clean SD

Section 1. Identification		
GHS product identifier	: Soder-Wick® No Clean SD	
Product code	: Soder-Wick® 60 Series (All Part Numbers)	
Chemical name	: Rosin coating, braided copper wire.	
Other means of identification	 Soder-Wick[®] No Clean SD. Various codes based on size and flux type, including but not limited to: 60 Series (All Part Numbers) 	
Product type	: Solid.	
Not applicable. Supplier's details	: Chemtronics	
Supplier's details	8125 Cobb Center Drive	
	Kennesaw, GA 30152	
	Tel. 770-424-4888 or toll free 800-645-5244	
Emergency telephone	: Chemtrec - 1-800-424-9300 or collect 703-527-3887	

Section 2. Hazards identification

OSHA/HCS status	: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.
Classification of the substance or mixture	: Not classified.
	Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 100%
GHS label elements	
Signal word	: No signal word.
Hazard statements	: Do not eat, drink or smoke when using this product.
Precautionary statements	
Prevention	: For professional use only.
Response	: Wash hands after handling.
Storage	: Store container tightly closed in well-ventilated place.
Disposal	: Dispose of contents and container in accordance with all local, regional, national and international regulations.
Hazards not otherwise classified	: CONTAINS MATERIAL THAT CAN CAUSE TARGET ORGAN DAMAGE.

Section 3. Composition/information on ingredients

Substance/mixture	: Mixture
Chemical name	: Rosin coating, braided copper wire.
Other means of identification	: Soder-Wick® No Clean SD. Various codes based on size and flux type, including but not limited to: 60 Series (All Part Numbers)

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

Date of issue/Date of revision	: 6/21/2019	Date of previous issue	: No previous validation	Version : 1	1/10
--------------------------------	-------------	------------------------	--------------------------	-------------	------

Section 3. Composition/information on ingredients

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

Description of needs	
Eye contact	 Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	 Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

wost important symptoms/	enects, acute and delayed
Potential acute health effe	<u>cts</u>
Eye contact	: May cause eye irritation.
Inhalation	: Vapor/soldering fumes May be irritating to eyes, skin and respiratory system. May cause sensitization by inhalation.
Skin contact	: May cause skin irritation. May cause sensitization by skin contact. May cause allergic skin reactions with repeated exposure.
Ingestion	: Do not ingest. If swallowed then seek immediate medical assistance.
Over-exposure signs/sym	<u>otoms</u>
Eye contact	: Adverse symptoms may include the following: irritation redness
Inhalation	: Adverse symptoms may include the following: respiratory tract irritation May cause sensitization by inhalation.
Skin contact	: Adverse symptoms may include the following: irritation sensitizer May cause allergic reactions in certain individuals.
Ingestion	: Adverse symptoms may include the following: Ingestion Seek medical attention.
Indication of immediate me	dical attention and special treatment needed, if necessary
Notes to physician	 Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: metal oxide/oxides
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protect	tiv	e equipment and emergency procedures
For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
For emergency responders	:	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.
Methods and materials for co	ont	ainment and cleaning up
Small spill	:	Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.
Large spill	:	Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8). Avoid release to the environment.
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Section 7. Handling and storage

Conditions for safe storage,	1	Store in accordance with local regulations. Store in original container protected from
including any		direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials
incompatibilities		(see Section 10) and food and drink. Keep container tightly closed and sealed until
		ready for use. Containers that have been opened must be carefully resealed and kept
		upright to prevent leakage. Do not store in unlabeled containers. Use appropriate
		containment to avoid environmental contamination.

Section 8. Exposure controls/personal protection

Control parameters

Skin protection

Occupational	exposure	<u>limits</u>
	-	

None.

Appropriate engineering : controls	Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Environmental exposure : controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.
Hygiene measures :	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eve/face protection :	Safety evenear complying with an approved standard should be used when a risk

ye/face protection	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Body protection	: Personal protective equipment for the body should be selected based on the task being

- performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection
 : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- **Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

Date of issue/Date of revision	: 6/21/2019	Date of previous issue	: No previous validation	Version : 1	4/10
Flash point	: Not appli	cable.			
Boiling point	: 318°C (6	04.4°F)			
Melting point	: Not availa	able.			
рН	: Not availa	able.			
Odor threshold	: Not availa	able.			
Odor	: wood ros	in			
Color	: Copper.				
Physical state	: Solid. [Me	etal.]			
<u>Appearance</u>					

Section 9. Physical and chemical properties

Evaporation rate	: Not available.
Flammability (solid, gas)	: Not available.
Lower and upper explosive (flammable) limits	: Not available.
Vapor pressure	: Not available.
Vapor density	: Not available.
Relative density	: Not available.
Solubility	: Not available.
Solubility in water	: Not available.
Partition coefficient: n- octanol/water	: Not available.
Auto-ignition temperature	: Not available.
Decomposition temperature	: Not available.
Viscosity	: Not available.
Flow time (ISO 2431)	: Not available.

Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: Reactive or incompatible with the following materials: Strong oxidizing agents
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on toxicologic	al effects
Acute toxicity	
Not available.	
Irritation/Corrosion	
Not available.	
Conclusion/Summary	
Skin	: May cause sensitization by skin contact.
Eyes	: May cause mild eye irritation.
Respiratory	: May cause sensitization by inhalation. Inhalation of this material may cause sensitive individuals to develop eczema and/or occupational asthma.
Sensitization	
Not available.	
Mutagenicity	
Not available.	
Carcinogenicity	

Section 11. Toxicological information

Not available.

Reproductive toxicity

Not available.

Teratogenicity

Not available.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure) Not available.

Aspiration hazard

Not available.

Information on the likely routes of exposure	: Not available.				
Potential acute health effect					
Eye contact	May cause eye irritation.				
Inhalation	Vapor/soldering fumes May be irritating to eyes, skin and respiratory system. May cause sensitization by inhalation.				
Skin contact	: May cause skin irritation. May cause sensitization by skin contact. May cause allergic skin reactions with repeated exposure.				
Ingestion	: Do not ingest. If swallowed then seek immediate medical assistance.				
Symptoms related to the ph	vsical, chemical and toxicological characteristics				
Eye contact	: Adverse symptoms may include the following: irritation redness				
Inhalation	 Adverse symptoms may include the following: respiratory tract irritation May cause sensitization by inhalation. 				
Skin contact	 Adverse symptoms may include the following: irritation sensitizer May cause allergic reactions in certain individuals. 				
Ingestion	: Adverse symptoms may include the following: Ingestion Seek medical attention.				
Delayed and immediate effe	ts and also chronic effects from short and long term exposure				
Short term exposure					
Potential immediate effects	: Not available.				
Potential delayed effects	: Not available.				
<u>Long term exposure</u>					
Potential immediate effects	: Not available.				
Potential delayed effects	: Not available.				
Potential chronic health eff	<u>ects</u>				
Not available.					
General	: No known significant effects or critical hazards.				
Carcinogenicity	: No known significant effects or critical hazards.				
Mutagenicity	: No known significant effects or critical hazards.				
Date of issue/Date of revision	: 6/21/2019 Date of previous issue : No previous validation Version : 1 6/				

Section 11. Toxicological information

Teratogenicity Developmental effects Fertility effects

: No known significant effects or critical hazards.

: No known significant effects or critical hazards.

: No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates

Not available.

Section 12. Ecological information

Toxicity

Not available.

Persistence and degradability

Not available.

Bioaccumulative potential

Not available.

Mobility in soil

Soil/water partition: Not available.coefficient (Koc)

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

	DOT Classification	TDG Classification	Mexico Classification	ADR/RID	IMDG	ΙΑΤΑ

Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.
