MicroTip

Product# CM502

Product Description
Chemtronics Microtip is designed for precision applications needing pinpoint accuracy. The tapered porous polyvinylidene fluoride tip is effective as a stylus or pick for areas with tight tolerances. The tip is attached to the handle without the use of potentially contaminating adhesives or glues. This swab is ideal for adhesive and lubricant application.

- Polyvinylidene fluoride tip has low extractables and particulate levels
- Compatible with most solvents and adhesives
- Tapered 1.925 mm tip can be used as a stylus
- Assembled without adhesives or glues
Compatibility
Microtip Swab is compatible with most common solvents such as alcohols, ketones, hydrocarbon and chlorinated solvents.

Shelf Life
5 Years from date of manufacture

Availability
CM502   6.7" swab with 0.07" x 0.62" head
   50 swabs / bag
