

BMG250

Shuttle Board

GENERAL DESCRIPTION

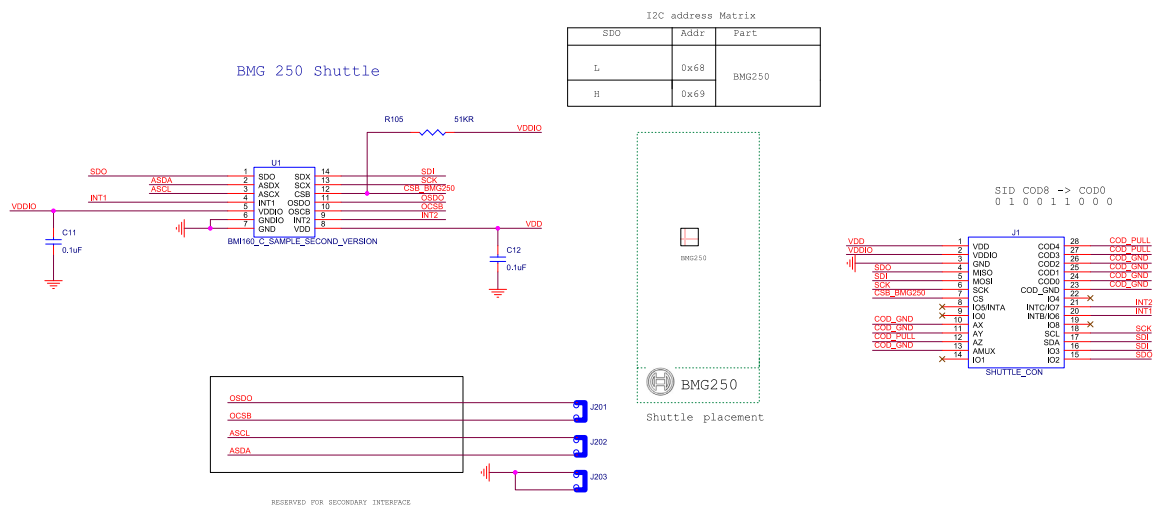

The Bosch Sensortec BMG250 shuttle-board is a PCB with a BMG250 gyroscope mounted on it. It allows easy access to the sensors pins via a simple socket. As all Bosch Sensortec sensor shuttle boards have identical footprint, they can be plugged into Bosch Sensortec's advanced development tools (e.g. the Application Board). Of course, the BMG250 shuttle board can also be used for customer's own implementations.

Note: Product photo may differ from real product's appearance.
