## Priority keylock switch IP54

## 3.13.027.511/0000

2 sets of keys included.

Other lock variants available on request.

RA

Either 2 or 3 different keys are required, depending on the angle between positions. Key 1 can switch to position 1, key 2 can switch to position 1 and 2, etc.

| General information                  |                             |
|--------------------------------------|-----------------------------|
| Color                                | light grey                  |
| Form of collar                       | square                      |
|                                      |                             |
| Dimensions                           |                             |
| Length of collar                     | 19 mm                       |
| Width of collar                      | 19 mm                       |
| Overall height                       | 19.5 mm                     |
| Mechanical design                    |                             |
| Mounting                             | soldering                   |
| Terminals                            | tin-plated                  |
| Contact system                       | cross contact self cleaning |
| Contact function                     | latching                    |
| Contact materials                    | Au alloy                    |
| Illuminability                       | no                          |
| Lock                                 | Micromec                    |
| Wafers                               | 55                          |
| Lock type                            | 001                         |
| Number of locking positions          | 500                         |
| Main key                             | on request                  |
| Key removal position                 | 0                           |
| Mechanical characteristics           |                             |
| Switching torque                     | 0.04 0.10 Nm                |
| Robustness max.                      | 2 Nm                        |
| Dielectric strength AC min.          | 500 V                       |
| Rated power max.                     | 1 W                         |
| Electrical characteristics           |                             |
| Rated voltage                        | 2 35 V                      |
| Rated current max.                   | 100 mA                      |
| Contact resistance when new max.     | 100 mΩ                      |
| Contact resistance acc. to life max. | 200 mΩ                      |
| Insulation resistance                | 10 <sup>9</sup> Ω           |
|                                      |                             |
