Disclaimer

The information in this document (hereinafter called “Information”) is subject to change without notice.

Macnica Inc. (Developer) makes no warranty of any kind regarding this document, or of any liability arising out of the application or use of information in this document, and assumes no responsibility for any errors that may appear in this document.

This document is distributed without any charge and reselling or copying without written authorization by Developer is restricted.

IN NO EVENT WILL DEVELOPER BE LIABLE FOR ANY CONSEQUENTIAL, INDIRECT, EXEMPLARY, SPECIAL, OR INCIDENTAL DAMAGES, INCLUDING ANY LOST DATA AND LOST PROFITS, ARISING FROM OR RELATING TO YOUR USE OF THE INFORMATION, EVEN IF YOU HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THE TOTAL CUMULATIVE LIABILITY OF DEVELOPER IN CONNECTION WITH YOUR USE OF THE INFORMATION IN THIS DOCUMENT, WHETHER IN CONTRACT OR TORT OR OTHERWISE, WILL IN NO EVENT EXCEED THE AMOUNT OF FEES PAID BY YOU TO DEVELOPER HEREUNDER FOR USE OF THE INFORMATION. YOU ACKNOWLEDGE THAT THE FEES, IF ANY, REFLECT THE ALLOCATION OF RISK SET FORTH IN THIS AGREEMENT AND THAT DEVELOPER WOULD NOT MAKE AVAILABLE THE INFORMATION TO YOU WITHOUT THESE LIMITATIONS OF LIABILITY.

The Information is not intended for use in the development of on-line control equipment in hazardous environments requiring failsafe controls, such as in the operation of nuclear facilities, aircraft navigation or communications systems, air traffic control, life support, or weapons systems (“High-Risk Applications”). Developer specifically disclaims any express or implied warranties of fitness for such High-Risk Applications. You represent that use of the Information in such High-Risk Applications is fully at your risk.

1. Read This First

1.1. Important Information

READ FIRST:

- **READ** this Reference Manual before using this product.
- **Keep** this Reference Manual so you can refer to it when needed.
- **Do not attempt** to use this product until you fully understand its mechanisms.

Purpose of the Product:

- This product is a reference board on which is mounted an ultra-low noise, ultra-high PSRR linear regulator IC LT3045 and negative voltage LT3094 from Analog Devices.
Be sure to use this product correctly for this purpose.

For Users of This Product:

- This product should be used only by individuals who have carefully read and understand these materials. Use of this product requires a basic knowledge of electronic circuits and power supply circuits.

Precautions to be taken when using This Product:

- This product is a device to support development that is intended to be used for the development of power supplies and their evaluation stages. **You cannot install the board in your product** and cannot use the board for mass-production of your power supply. When mass-producing a power supply you have finished developing, be sure to decide at your own responsibility whether it can be put to practical use by performing integration test, evaluation, or some other experiment.
- In no event shall Macnica Inc. be liable for any consequence arising from the use of this product.
- Macnica Inc. shall make effort to provide a workaround or fix for failures of this product, with or without charge. This does not mean, however, that Macnica Inc. guarantees to provide a workaround or fix under all circumstances.
- Macnica Inc. cannot anticipate every possible circumstance that might involve a potential hazard. The warnings in this reference manual and on the product are therefore not all-inclusive. Use this product correctly and safely at your own responsibility.
- Even if a device installed on this product has a failure, it cannot be replaced.
- Remodeling or damages caused by the customer is not guaranteed.
- This product is a lead-free mounting product.
- Generally, the brand names carried in this manual each constitute a maker's trademark or registered trademark.

Improvement Policy:

- Macnica Inc. pursues a policy of continuous improvement in design, performance, and safety of the product. Macnica Inc. reserves the right to change, wholly or partially, specifications, design, reference manual, and other documentation at any time without notice.

Warranty:

- Macnica Inc. offers exchange of this product free of charge only in a set range of cases of initial trouble for this product, and within 30 days from when the customer received delivery of the Board. Macnica Inc. cannot exchange products in cases where breakdown is caused for the following reasons:
 - (1) Misuse, abuse of the product or use under abnormal conditions
 - (2) Remodeling or repair
 - (3) A fire, earthquake, fall or other accidents

Figures:

- Some figures in this reference manual may differ from your system as purchased.

1.2. Developer Information

The Developer of this product is:

Macnica, Inc. Altima Company

Attend on Tower 2F, 2-8-12 Shin-Yokohama, Kouhoku-ku, Yokohama, 222-0033 JAPAN

<https://www.macnica.co.jp/en/company/>

1.3. Inquires

In case you have any inquiries about the use this product, please contact your local Macnica company or make inquiries through the contact form in the following web site:

<http://www.m-pression.com/contact>

Macnica companies:

2. For Ensuring Safe Use

Be sure to follow the precautions given here, which are intended to prevent harm to the user and others, as well as material damage.

2.1. Legend

	Warning	Indicates a potentially hazardous situation which if not avoided could result in death or serious injury.
	Caution	Indicates a potentially hazardous situation which if not avoided may result in minor or moderate injury or in property damage.

- **Notes and important information** are used to inform users about exceptional conditions, cautions for operational procedures, and in explanations.

2.2. Cautions

	Warning	Do not apply strong impacts or blows to the kit. Doing so may cause the kit to emit heat, explode, or ignite, or the equipment in the kit to fail or malfunction. This may also cause fire.
		Do not put the main unit in cooking appliances, such as microwave ovens, or high-pressure containers. Doing so might cause the main unit to emit heat, explode, ignite, or emit smoke, or its parts to break or warp.
		Do not wrap the main unit that is in use with cloth or other materials that are likely to allow heat to build up inside the wrapping. This will cause heat to build up inside the wrapping which may cause the main unit to ignite or malfunction.
		When disposing of the main unit, do not dispose of it along with general household waste. Throwing the main unit into fire may cause it to explode. Dispose of the main unit following the laws, regulations, and ordinances governing waste disposal.
		Do not place any containers such as cups or vases filled with water or other liquid on this Board. If this Board is exposed to water or other liquids it may cause the Board to malfunction or lead to accidents involving electrical shock. If you spill water or other liquid on this Board, immediately stop using the Board, and turn off the power. If you have any requests for repairs or technical consultation, please contact the local Macnica company or Mpression inquiry URL.
		Keep this board and accessories out of reach of children. Failure to do so may lead to injuries.
	Caution	Do not place the kit on unstable places such as shaky stands or tilted locations. Doing so may cause injuries or cause this Board to malfunction if the Board should fall.
		Do not attempt to use or leave the kit in places subject to strong direct sunlight or other places subject to high temperatures such as in cars in hot weather. Doing so might cause the kit to emit heat, break, ignite, run out of control, warp, or malfunction. Also, some parts of the equipment might emit heat causing burn injuries.

 Caution (Continued from previous page)	<p>Do not place this board in locations where excessive force may be applied to it. Doing so may cause the PC board to warp, leading to breakage of the PC board, missing parts or malfunctioning parts.</p>
	<p>Do not clean this Board by using a rag containing chemicals such as benzine or thinner. Failure to do so will likely to cause this Board to deteriorate. When using a chemical cloth be sure to comply with any directions or warnings.</p>
	<p>Do not immediately turn on the power if you find that water or moisture had condensed onto the main unit after removing the board from the package. Condensation might occur on this Board when taking it out of the box, if the board is cool yet the room temperature is warm. Do not apply power to the Board while water or moisture has condensed on it because the moisture may cause the Board to break or may shorten the service life of the parts. When you first take this Board out of the box be sure to leave it at room temperature for a while before using it. If condensation or moisture has occurred on this Board, first wait for the moisture to fully evaporate before <u>installing or connecting the Board to other devices.</u></p>
	<p>Do not disassemble, dismantle, modify, alter, or recycle parts unless they are clearly described as customizable in this Manual. Although this board is a customizable product, overall product operation cannot be guaranteed if parts needed for basic operations, which are not specified in this Manual as customizable, are modified in any way. Please contact the local Macnica company or Mpression inquiry URL beforehand if you wish to customize or modify any parts that are not described in this Manual as customizable.</p>

3. Unboxing

When unpacking the product, make sure that everything is included and that nothing is damaged. If something is missing, or if you discover physical damage, contact your sales representative within 30 days after the product was delivered to you.

Reference Manual	

4. Functions and Features of the Product

4.1. Features

This board is a reference board for high-precision, low-noise $\pm 12\text{ V}$ output LDO power supply.

An Analog Devices linear regulator IC (model: LT3045EDD#PBF and model: LT3094EDD#PBF), a resistor, capacitor, and other parts are mounted on the board, which can be operated by applying input voltage.

4.2. Key Components

The board's product specifications are shown below.

Key components		ALT304594PM12
LT3045	Input voltage (P-VIN)	12.5 V to 20 V
	Output voltage (P-VOUT)	12 V
	Output current	500 mA
LT3094	Input voltage (N-VIN)	-20 V to -12.5 V
	Output voltage (N-VOUT)	-12 V
	Output current	500 mA
External Dimensions		W: 55 mm x H: 50 mm
Layer configuration		4 layers
Board thickness		1.6 mm
Material		FR-4
Major parts		Model (manufacturer)
Linear regulator IC		LT3045EDD#PBF (ANALOG DEVICES)
Linear regulator IC		LT3094EDD#PBF (ANALOG DEVICES)

5. Board Diagram and Board Photo

A diagram and photo of the board are shown below.

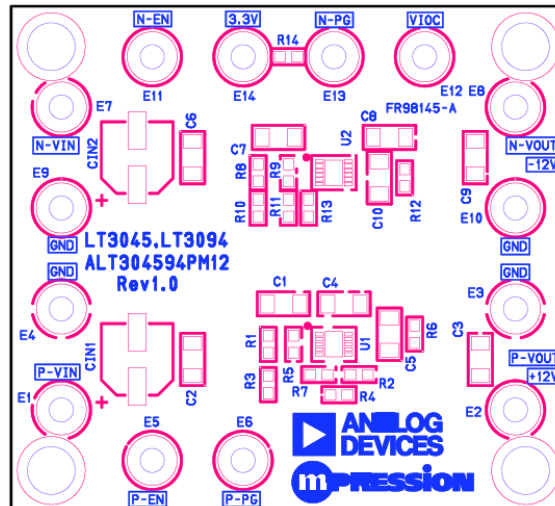

Figure 5-1 Diagram of Components on Board

Figure 5-2 Photo of Board

6. Circuit Diagram of Board

A circuit diagram of the board is shown below.

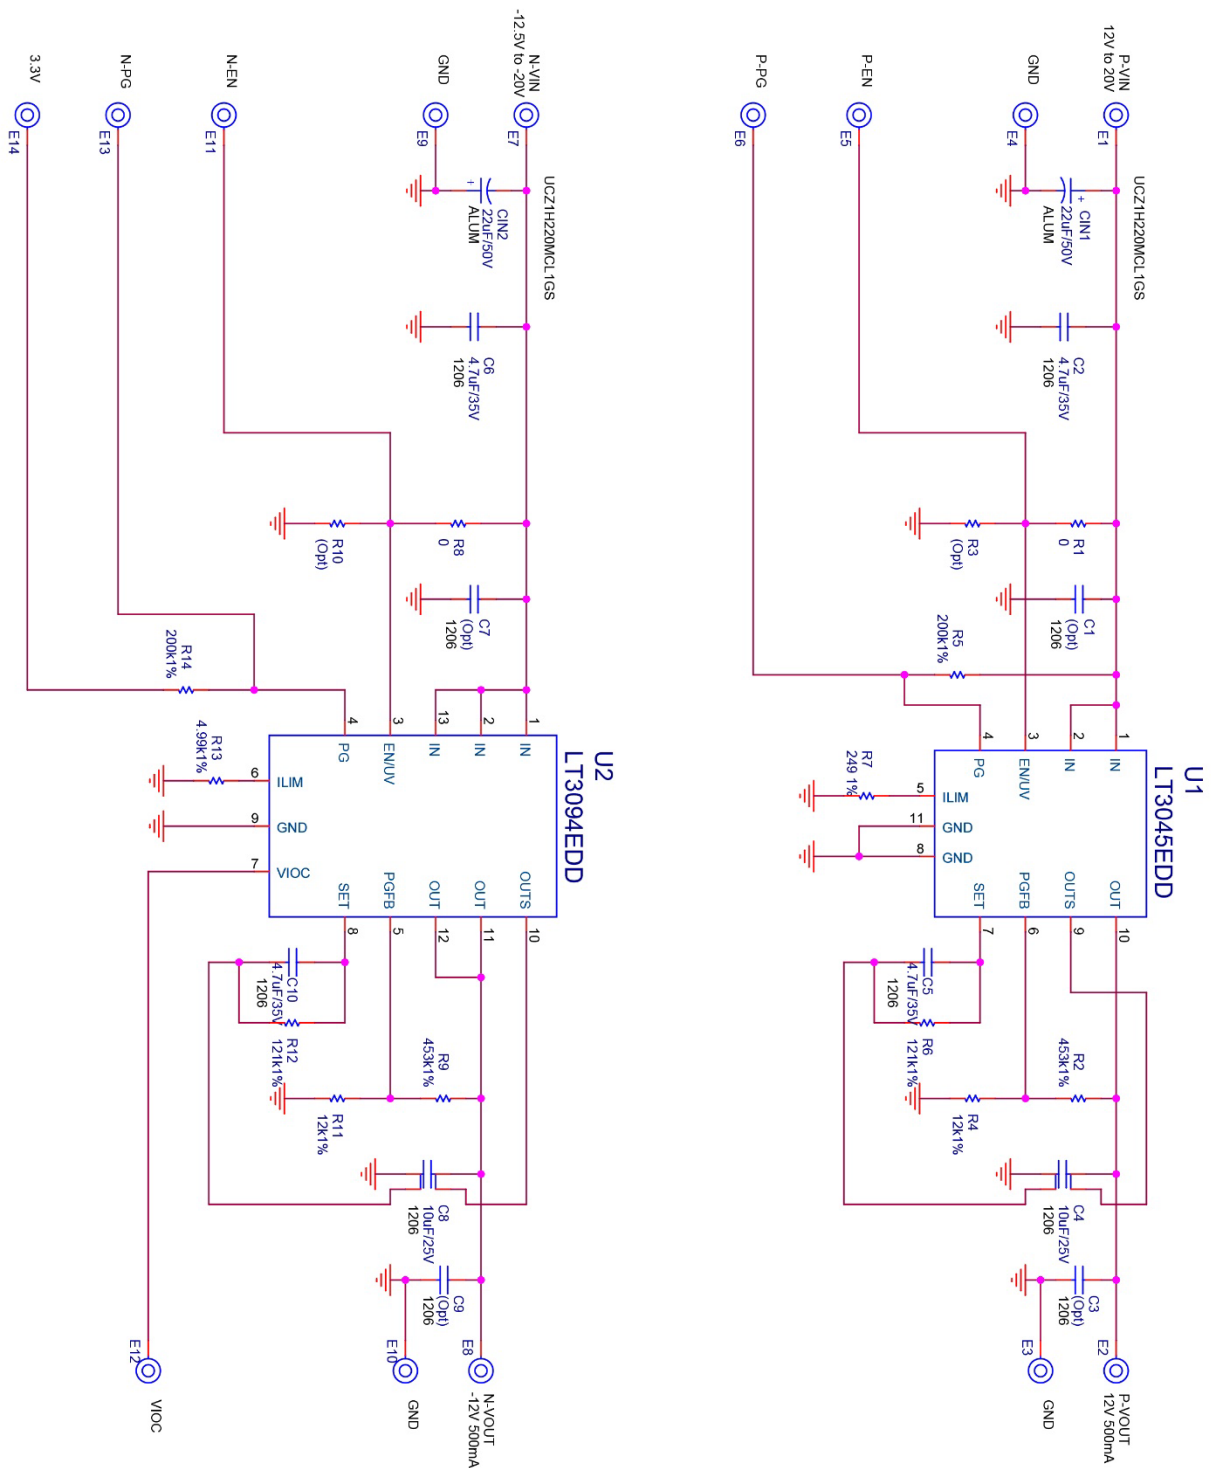

Figure 6-1 Circuit Diagram of ALT304594PM12 Rev 1.0 Board

7. Measuring Circuit

A measuring circuit is shown below.

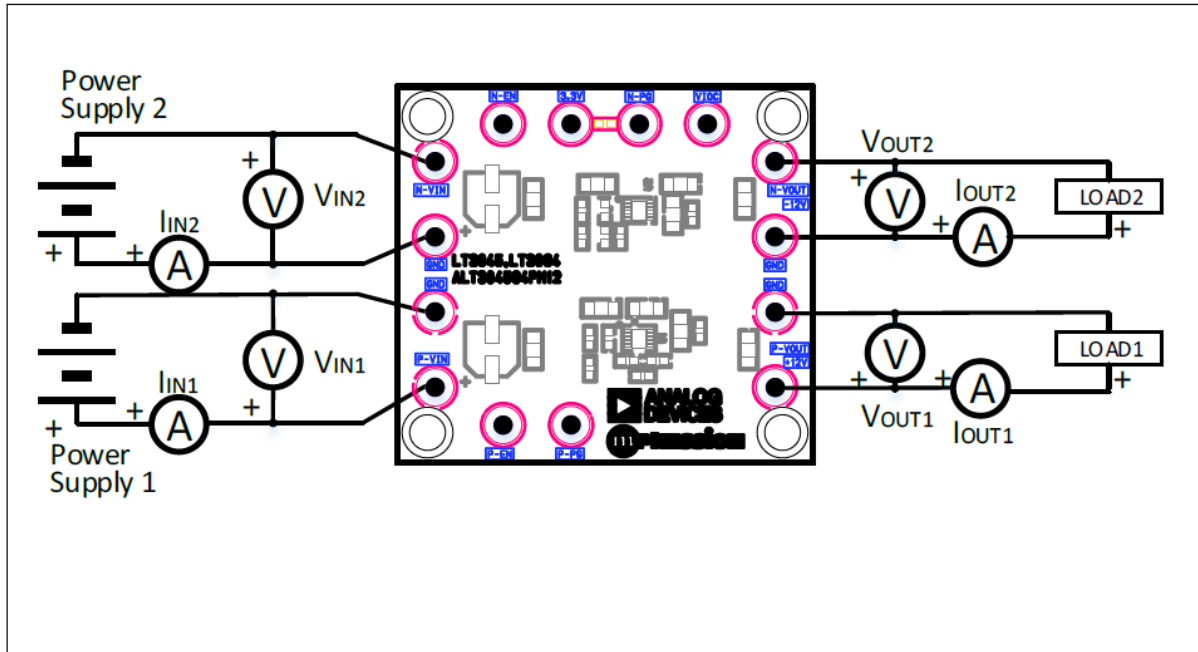

Figure 7-1 Measuring Circuit

8. Measured Items

The results of electric characteristics and performance evaluation are shown here.

8.1. Electric Characteristics

Table 8.1-1 Product Specifications Specifications are at $T_A = 25^\circ\text{C}$

PARAMETER	CONDITIONS	MIN	TYP	MAX	UNITS
Input Voltage Range (VIN1)	IOUT1 = 500 mA VOUT1 = 12 V	12.5		20.0	V
Output Voltage (VOUT1)	VIN1 = 15 V IOUT1 = 500 mA	11.64		12.36	V
Input Voltage Range (VIN2)	IOUT2 = 500 mA VOUT2 = -12 V	-20.0		-12.5	V
Output Voltage (VOUT2)	VIN2 = -15 V IOUT2 = 500 mA	-12.36		-11.64	V

8.2. Performance Evaluation

8.2.1. LT3045 Load Transient Response

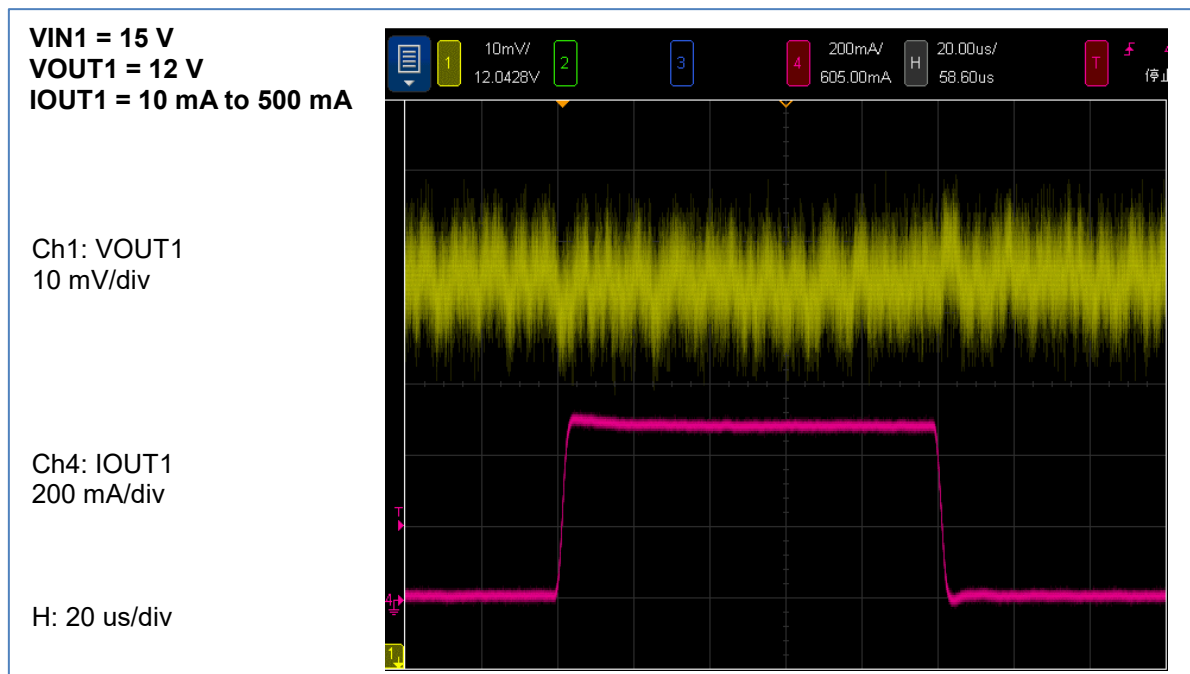

Figure 8.2.1-1 LT3045 Load Transient Response

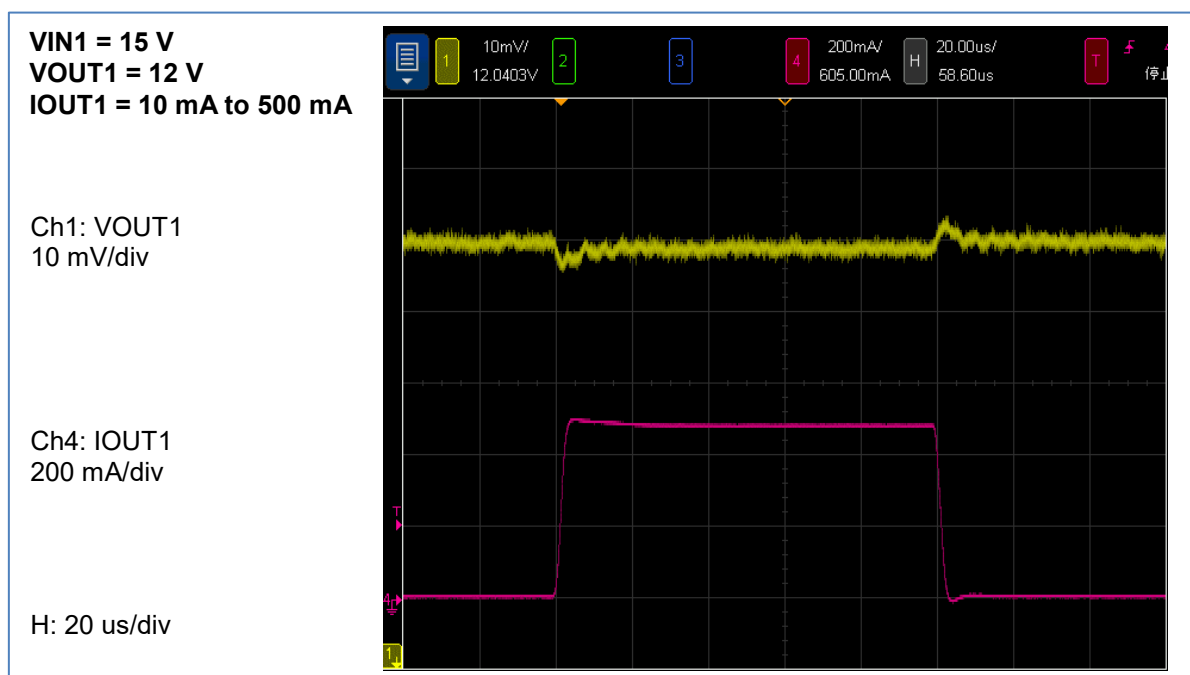

Figure 8.2.1-2 LT3045 Load Transient Response average = 16 times

8.2.2.LT3094 Load Transient Response

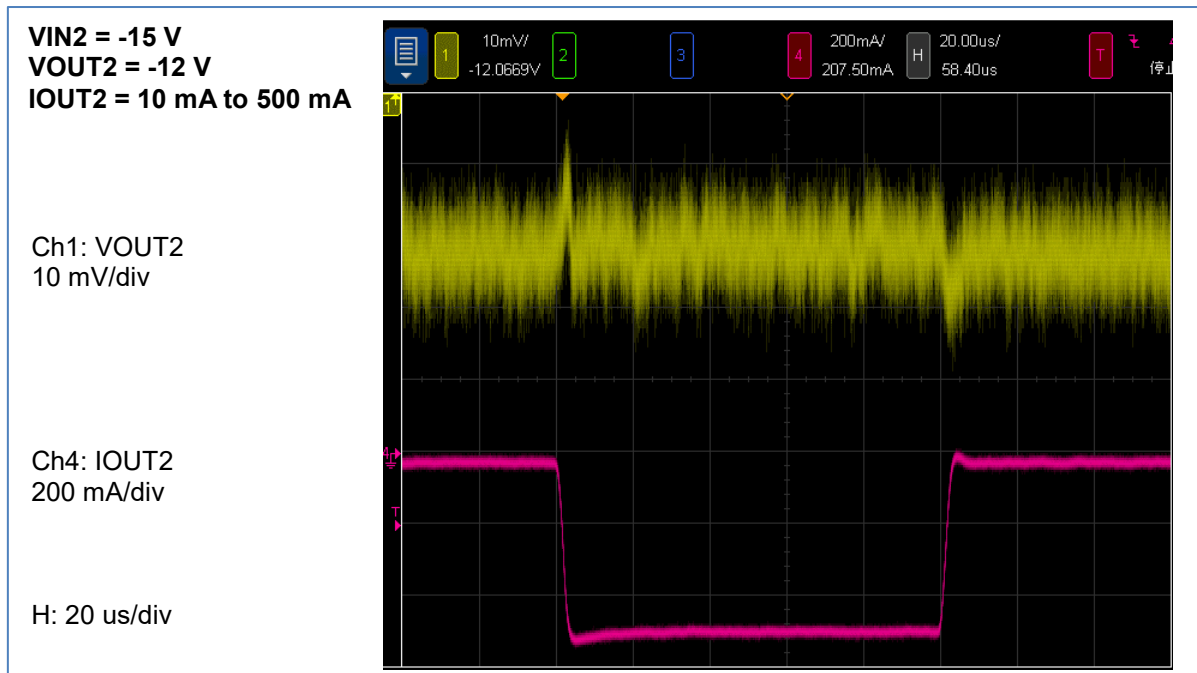

Figure 8.2.2-1 LT3094 Load Transient Response

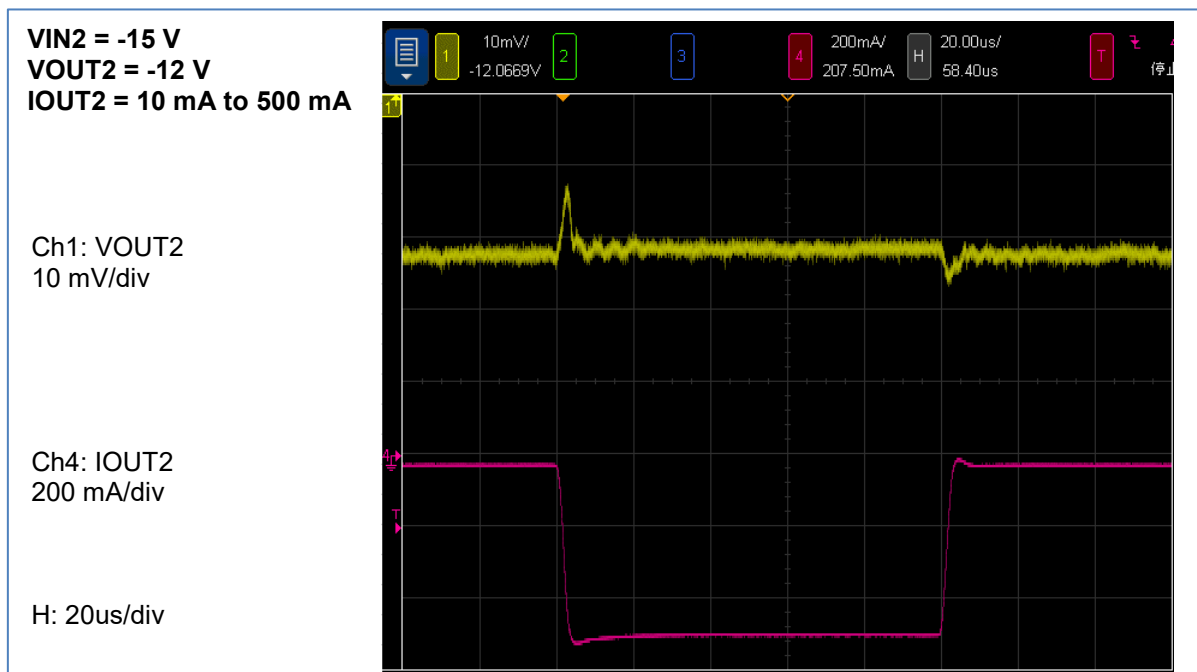

Figure 8.2.2-2 LT3094 Load Transient Response average = 16 times
