

Gumstix Jetson TX2 FastFlash Product datasheet

PKG900000001445

USD150.00

Product Features

Usb	
USB Type-C	USB Type-C Connector

The FastFlash expansion board, designed specifically for the NVIDIA® Jetson TX2 FastFlash (not included), is a cost-effective device that allows you to initialize or overwrite the Jetson TX2's embedded storage with a new disk image. The board is powered from a USB-C connector. The single USB-C connection provides flashing capabilities as well as a serial console.

NVIDIA® JETSON TX2 MODULE IS NOT INCLUDED.

What's included

1 × Gumstix Jetson TX2 FastFlash

Key component

1 × USB Type-C Port

1 × FTDI FT232RQ USB UART Interface
