

Gumstix Raspberry Pi CM4 UprevAI Product datasheet

PKG900000001464

USD75.00

Product Features

Inter-board connector	
Board-To-Board Connector	3mm stack height
Processor	
Processor	Google Edge TPU ML accelerator
General	
Raspberry Pi Compatible	Compatible with the Raspberry Pi family.

The GUMSTIX RASPBERRY PI CM4 UPREVAI replaces the CM3 compute module on compatible carrier boards, adding a CM4 connector and Google Coral TPU chip. Accelerate your hardware and migrate it into the field of EDGE AI without revising your design.

FEATURES INCLUDE: * Raspberry Pi CM3 compatible SODIMM edge connection * Power indicator LED * Google Coral G313-06329-00 TPU

What's included

1 × Raspberry Pi CM4 to CM3 with Coral

Key component

2 × Hirose 100-pin DF40 connector, 3mm stack height

1 × Google Coral Accelerator Module
