

# Silicone collimator for COB connectors

## 47.940.U411.85

# Silicone collimator for COB connectors

## 47.940.U411.85

## DESCRIPTION

High quality transparency Clear delineation of the light-dark zones Reduction of stray light through patented technology High temperature load Higher insensitivity to environmental influences than with PC or PMMA \*Beam angle (FWHM) measured with Citizen CLU28 and connector 47.319.6294.1010.50. Beam angle depends on the COB used.

Product name:	Silicone collimator for COB connectors
Short description:	For use with Spotlight connectors 47.319.6xxx and 47.360
Beam angle characteristic:	Spot
Beam angle:	10°
Utility film:	/var/www/html/data/documents/Utilityfilms/Utlityfilm_BJB_COB-Montage_mit_Connectoren/start.html
