

Silicone collimator for COB connectors

47.940.U413.85

Silicone collimator for COB connectors

47.940.U413.85

DESCRIPTION

High quality transparency Clear delineation of the light-dark zones Reduction of stray light through patented technology High temperature load Higher insensitivity to environmental influences than with PC or PMMA *Beam angle (FWHM) measured with Citizen CLU28 and connector 47.319.6294.1010.50. Beam angle depends on the COB used.

Product name:	Silicone collimator for COB connectors
Short description:	For use with Spotlight connectors 47.319.6xxx and 47.360
Beam angle characteristic:	Flood
Beam angle:	37°
