CRTtoLCD-61-LP and CRTtoLCD-71-LP.

ADAPT-61-LP / ADAPT-71-LP

Description

ADAPT-x1-LP input header adapters are used in combination with eCOUNT embedded CRTtoLCD Low Profile-Series.

Both can be configured in a flexible way to use required input sources, e.g. with Analog-RGB (VGA), DVI, DP, Video (Composite, S-Video, Component), PCB sections can be separated at the cut-lines if inputs are not needed or have to be mounted at other locations.

There are two versions available: ADAPT-61-LP is used in combination with CRTtoLCD-61-LP and ADAPT-71-LP with CRTtoLCD-71-LP.

They are pin-compatible with all Low-Profile(LP) controllers so ADAPT-61-LP can also be used on CRTtoLCD-71-LP.
