Notes:

See AirBorn spec ESL5001 for installation information.
Connector potting is standard.

* Consult factory for additional board spacing options.

** Not available with 8 mm board spacing

† Used for PC board thickness up to 0.125"

‡ Used for PC board thickness 0.125" up to 0.250"

§ Surface Mount Termination only available on 4 Row vertical connectors.

¶ No hardware supplied with blank hardware option connectors.

AirBorn can manufacture other configurations to your exact specifications.

RoHS Compliant (except for termination option 10); certificate of conformance available upon request with each shipment

Reliable Contact Every Time

VerSI connectors feature a low-mating-force, high-reliability contact system with four points-of-contact.

The open-pin field design allows flexibility in termination schemes. Single-ended, differential pair, power, and ground are all available in one connector design.
