

Important Note

This product supports 4K 60 Hz 4:4:4 subsampling for HDR televisions. To ensure optimal performance, check the factory default settings on your display: Frequency (Hz) should be set to 60 Hz. HDR feature should be enabled. HDMI input settings should be set to 2.0. UHD Deep Color should be set to ON.

2-Port HDMI over Cat6 Active Remote Receiver for Video/Audio, 4K 60 Hz, HDR, PoC, 125 ft., TAA

MODEL NUMBER: **B127-200-H**

Works with Tripp Lite B127-Series transmitters to extend 4K audio/video via Cat6 cable to 2 HDMI displays up to 125 ft. away.

Features

2-Port Receiver Extends HDMI Signals for 4K Digital Signage or Video Presentations This box-style active remote receiver works in tandem with B127-002-H or B127-004-H transmitter to extend 4K video (at 60 Hz) and 7.1 audio from an HDMI source to two HDMI displays up to 125 feet (38 meters) using Cat6 cabling. It can also extend a 4K HDMI signal (at 30 Hz) up to 150 feet (46 m) and a 1080p HDMI signal (at 60 Hz) up to 200 feet (61 m).

An Ideal Setup for Settings Where Conventional HDMI Cables Can't Reach The B127-200-H is recommended for home theaters and video presentations in conference rooms, schools, trade shows, meeting facilities, houses of worship, retail settings and other digital signage applications where the source and display are farther apart than conventional A/V cables allow.

Built-In PoC Technology Provides Power to Avoid Bulky External Power Bricks Built-in Power over Cable (PoC) technology powers the low-profile receiver over Cat6 cable. Green and orange LEDs will light up to indicate the unit is receiving power and a signal is being received. PoC lets you avoid the hassle of a bulky power brick and gives you the freedom to place the receiver away from an AC outlet.

Supports Crystal-Clear 4K HDMI Video with Multi-Channel Audio and 4:4:4 Color The B127-200-H supports Ultra HD video resolutions up to 4K x 2K (3840 x 2160) at 60 Hz, as specified in HDMI 2.0, with full, rich uncompressed DTS-HD, Dolby TrueHD and 7.1-channel digital audio. Built-in equalization automatically fine-tunes the image quality at the remote displays with no time-consuming manual fiddling needed. The receiver is capable of carrying HDR signals, which provide a wide range of vibrant colors with richer contrast, brighter whites and deeper blacks. HDCP 2.2 compliance allows you to stream iTunes and Netflix content with no complications. The B127-200-H also supports 4:4:4 chroma subsampling for top-level PC gaming or using your HDTV as a PC monitor.

Highlights

- Requires B127-002-H or B127-004-H transmitter to extend HDMI signals
- Supports UHD resolutions up to 4K @ 60 Hz (4:4:4) for crystal-clear video
- Power over Cable (PoC) technology provides power to the receiver via Cat6 cable
- Supports High Dynamic Range (HDR) for richer contrast and expanded color accuracy
- Plug-and-play operation with no software required for easy, immediate installation

Applications

- Connect a media server, Blu-ray player, cable/satellite box, Roku, gaming system or other home theater component to large-screen 4K televisions or projectors
- Upgrade the video quality of your trade show presentation or digital signage installation in a commercial or educational setting to 4K x 2K
- Set up digital signage with a single video signal being transmitted to multiple displays

System Requirements

- B127-002-H or B127-004-H transmitter
- Display devices with HDMI input (HDTV, projector, monitor)

Package Includes

- B127-200-H 2-Port HDMI over Cat6 Active Remote Receiver
- Mounting hardware
- Owner's manual

Plug-and-Play Operation for Quick Setup and Immediate Use The receiver works right out of the box with no software required. Mounting hardware is included for installing it on a wall, pole or 19-inch rack. Connect the receiver to the display with a user-supplied high-speed HDMI cable (such as P568- or P569-Series) and to the transmitter with Cat6 Ethernet cable (such as N202-Series cable).

TAA-Compliant for GSA Schedule Purchases The B127-200-H is compliant with the Federal Trade Agreements Act (TAA), which makes it eligible for GSA (General Services Administration) Schedule and other federal procurement contracts.
