
IEC 61508 Functional Safety Packages for tinyAVR® 2 Family

Packages

Packages covered by the release note	IEC 61508 Basic Package
Target devices	tinyAVR® 2 microcontroller family
Version	1.0
Date (yyyy.mm.dd)	2022.03.01

List of Contents in Packages

Item	Doc. ID/Revision	Release Date (yyyy.mm.dd)	Basic
IEC 61508 FMEDA for ATtiny82x	FS-00106/C	2022.02.03	X
IEC 61508 FMEDA for ATtiny162x	FS-00072/E	2022.02.03	X
IEC 61508 FMEDA for ATtiny322x	FS-00105/C	2022.02.03	X
Safety Manual for tinyAVR® 2 microcontroller family	DS-40002393/A	2022.02.09	X

About the Contents in the Package

An FMEDA provides the base FIT rate of the device. It also provides the means to determine the residual FIT rate when the relevant diagnostic mechanisms are selected in the FMEDA by the system integrator.

A safety manual describes, in detail, how to use the device from both a hardware and software perspective in a safety-critical application that must conform to the IEC 61508 safety standard.

Refer to [IEC 61508 Industrial Functional Safety for PIC® and AVR®](#) for more information about the functional safety packages.

The Microchip Website

Microchip provides online support via our website at www.microchip.com/. This website is used to make files and information easily available to customers. Some of the content available includes:

- **Product Support** – Data sheets and errata, application notes and sample programs, design resources, user's guides and hardware support documents, latest software releases and archived software
- **General Technical Support** – Frequently Asked Questions (FAQs), technical support requests, online discussion groups, Microchip design partner program member listing
- **Business of Microchip** – Product selector and ordering guides, latest Microchip press releases, listing of seminars and events, listings of Microchip sales offices, distributors and factory representatives

Product Change Notification Service

Microchip's product change notification service helps keep customers current on Microchip products. Subscribers will receive email notification whenever there are changes, updates, revisions or errata related to a specified product family or development tool of interest.

To register, go to www.microchip.com/pcn and follow the registration instructions.

Customer Support

Users of Microchip products can receive assistance through several channels:

- Distributor or Representative
- Local Sales Office
- Embedded Solutions Engineer (ESE)
- Technical Support

Customers should contact their distributor, representative or ESE for support. Local sales offices are also available to help customers. A listing of sales offices and locations is included in this document.

Technical support is available through the website at: www.microchip.com/support

Microchip Devices Code Protection Feature

Note the following details of the code protection feature on Microchip products:

- Microchip products meet the specifications contained in their particular Microchip Data Sheet.
- Microchip believes that its family of products is secure when used in the intended manner, within operating specifications, and under normal conditions.
- Microchip values and aggressively protects its intellectual property rights. Attempts to breach the code protection features of Microchip product is strictly prohibited and may violate the Digital Millennium Copyright Act.
- Neither Microchip nor any other semiconductor manufacturer can guarantee the security of its code. Code protection does not mean that we are guaranteeing the product is "unbreakable". Code protection is constantly evolving. Microchip is committed to continuously improving the code protection features of our products.
