

# 801B Aerosol

## Super Contact Cleaner With Polyphenyl Ether

801B electrical contact cleaner spray cleans, lubricates and protects contacts. It contains a slow drying, plastics-safe solvent that removes stubborn residues. The PPE enhances conductivity and provides long term protection from oxidation. It also bonds to the surface of metals and is particularly effective on gold, protecting gold contacts for life.

This PCB contact cleaner reduces contact scrubbing, connection wear, and abrasion failure. It also protects and lubricates connectors, jacks, relays, contacts, switches, plugs, batteries, controls, potentiometers, and more.

## Features & Benefits

Plastic Safe—compatible with most sensitive substrate used in electronic parts and enclosures

Improves conductivity

Protects gold for life

CARB compliant

## Storage and Handling

Store between -20 and 40 °C in a dry area, away from sunlight. Store in well-ventilated places (see SDS).

## Available Packaging

Part #	Packaging	Net Vol.	Net Wt.
801B-125G	Aerosol	155 mL	125 g

## Properties

Color	Clear, light yellow
Odor	Slight hydrocarbon
Density @ 25 °C	0.8 g/mL
Viscosity @ 25 °C	≤20.5 mm <sup>2</sup> /s
Flash Point	58 °C
Boiling Point	183 °C
Vapor Pressure @ 20 °C	0.05 kPa
Volatile Organic Compound (VOC)	75%
Shelf Life	5 y
