

Cleaning Brushes

Description

MG Chemicals brushes enhance the delivery of chemical cleaners and remove loose debris that cleaners alone cannot. The bristles come in stainless steel, brass, horse, or hog hair. The brush handles come in a selection of wood, stainless steel, cad plated steel, or tin. Depending on the application, the brushes offer abrasive, non-abrasive, or anti-static properties.

Features & Benefits

- Durable
- Secured bristles eliminate bristle loss and contamination
- Robust handles
- Anti-static—Cat No. 852, 855, 856, 857, and 859

Bristle Materials

Stainless Steel	Highly abrasive bristles that are resistant to heat, rust, and corrosion
Brass	Abrasive and flexible bristles that are good for soft metal surfaces
Hog Hair	Fairly stiff hair, non-abrasive bristles with excellent durability, and water resistance. Heat tolerant to 188 °C.
Horse Hair	Durable, soft to slightly stiff bristles that can be used for scratch-free dry brushing and polishing. It is not resistant to acids or alkalis. Heat tolerant to 188 °C.

Available Packaging

	Part #	Trim	Row	Brush Face (L x W)	Handle (L x W)	Handle Material	Quantity
