

Ratcheting Heat Shrink Terminal Crimper, 10 to 22 AWG Wire

The full-cycle Ratcheting Crimper crimps 10-22 AWG heat shrink wire terminals. This tool features three crimping cavities in one tool with color-coded wire markings for three size ranges of heat shrink terminals. Crimper design provides low effort to crimp while maintaining a high terminal pull-off force. Built-in ratchet ensures full-cycle crimping for a uniform crimp every time.

Specifications

Type:	Ratcheting Crimper	Application:	Heat-Shrink Terminal Crimping on Stranded Wire
Special Features:	3 Crimping Cavities	Material:	Steel
Handle Color:	Red/Black	Handle Finish:	Dual-Material
