

KeyCap

SKU:A153

| Description

KeyCap is a customizable mechanical keyboard keycap that is compatible with various mechanical keyboards featuring **cross-shaped switch** designs. The product is meticulously crafted using plastic injection molding technology and equipped with a **snap-fit** design, making sticker replacement and key customization quick and easy. The middle section of the keycap has a slight curvature, adhering to ergonomic principles for a more comfortable fingertip fit and delivering an exceptional typing experience. With outstanding durability and a lightweight feel, the KeyCap is suitable for various scenarios including office work, gaming, and creative projects.

| Features
