Shield connection, connection method: Spring-cage connection, product range: ZUBEHOER, width: 11 mm

Your advantages

- Safe discharge of interference signals
- Low transfer impedance due to large-surface shield connection
- Convenient mounting of the cable shielding
- As components, it is not possible to certify shield connections in accordance with the requirements of the directive and standards for electrical equipment in potentially explosive areas. As such, shield connection terminal blocks can be used in potentially explosive areas even without an appropriate approval or identification
