Axioline F, Power module for the logic supply U_{Bus} , max. 4 A, transmission speed in the local bus: 100 Mbps, degree of protection: IP20, including bus base module and Axioline F connector

Product description

The module is designed for use within an Axioline F station. If the maximum load of the bus coupler for the Axioline F local bus supply (communications power U_{Bus}) is reached, this module can be used to provide this voltage again. To this end, apply a 24 V DC voltage (U_L) to the module from which the U_{Bus} is generated.

Your advantages

- Supply of the 24 V voltage U_{L} for generating the communications power U_{Bus}
