Please be informed that the data shown in this PDF document is generated from our online catalog. Please find the complete data in the user documentation. Our general terms of use for downloads are valid.

Cable connector, straight, Screw locking mechanism, M17, number of positions: 17, contact connection type: Socket, shielded: yes, degree of protection: IP67, cable diameter range: 8 mm . .. 10 mm, number of positions: 17, connection method: Crimp connection, series: ST, this item is expected to be lead-free from Q4 2025 in accordance with RoHS II without exception 6c (Pb < 0. 1%), a lead-free alternative is possible on request in advance, This product is in the process of being discontinued. This product must no longer be considered for new projects. Please contact your sales representative for alternatives.

Your advantages

- Consistent EMC protection for reliable connection solutions in the industrial environment
- · Crimping connection: vibration- and temperature-resistant assembly
- · Flexible use: reliably connect various cable diameters
- · Molded designs with preassembled cables on one or both sides

Commercial data

Item number	1607643
Packing unit	1 pc
Minimum order quantity	1 pc
Sales key	AB31
Product key	ABRACA
GTIN	4046356273534
Weight per piece (including packing)	63 g
Weight per piece (excluding packing)	60.95 g
Customs tariff number	85366990
Country of origin	DE

Technical data

Notes

Order information:	Order crimp contacts Ø 0.6 mm separately			
Safaty note				
Safety note Safety note	WARNING: The connectors may not be plugged in or disconnected under load. Ignoring the warning or improper use may damage persons and/or property.			
	 WARNING: Commission properly functioning products only. The products must be regularly inspected for damage. Decommission defective products immediately. Replace damaged products. Repairs are not possible. 			
	WARNING: Only electrically qualified personnel may install and operate the product. They must observe the following safety notes. The qualified personnel must be familiar with the basics of electrical engineering. They must be able to recognize and prevent danger. The relevant symbol on the packaging indicates that only personnel familiar with electrical engineering are allowed to install and operate the product.			
	 The products are suitable for applications in plant, controller, and electrical device engineering. 			
	When operating the connectors in outdoor applications, they must be separately protected against environmental influences.			
	 Assembled products may not be manipulated or improperly opened. 			
	 Only use mating connectors that are specified in the technical data of the standards listed (e.g. the ones listed in the product accessories online at phoenixcontact.com/products). 			
	When using the product in direct connection with third-party manufacturers, the user is responsible.			
	 For operating voltages > 50 V AC, conductive connector housings must be grounded 			
	Ensure that the protective or functional ground has been properly connected.			
	VDE 0100/1.97 § 411.1.3.2 and DIN EN 60 204/11.98 § 14.1.3 are applicable when combining several circuits in a cable and/or connector			
	Only use tools recommended by Phoenix Contact			
	 The installation notes/Design In documents online on the download page at phoenixcontact.com/products must be observed for this product. 			
	 Operate the connector only when it is fully plugged in and interlocked. 			
	 Ensure that when laying the cable, the tensile load on the connectors does not exceed the upper limit specified in the standards. 			
	Observe the minimum bending radius of the cable. Lay the cable without twisting it.			
	The connector warms up in normal operation. Depending on the ambient conditions, the surface of the connector can continue to warm up. In this case, the user is responsible for posting
