

M12 Power male 0° / female 0° T-cod.

PUR 4x1.5 bk UL/CSA+drag ch. 27m

Art.No.: 7000-P7241-7822700

Weight: 3.135 Country of origin: DE

Model designation: MSWBTL0-WAT-T782 27.0

Advantages of our M12 power connectors:

Our M12 power connectors are ideal for supplying power to your industrial applications and are specially optimised for harsh environments. The T-coded connectors are available in 4-pin versions and offer a current carrying capacity of 12A per pin at 63V DC. They are ideal for supplying power to decentralised devices such as I/O & fieldbus modules, power supply units, fuses, motors and drives.

All Murrelektronik connectors are 100% tested during the manufacturing process to ensure the highest quality and reliability. The contacts are gold-plated, which ensures excellent conductivity. Thanks to the high degree of protection IP67 and the integrated protective conduit connection, they are ideal for demanding industrial environments. They are also vibration-resistant - this is guaranteed by the integrated vibration protection.

The M12 power connectors are designed in accordance with the IEC 61076-2-111 standard and UL-approved in accordance with 2237 (PVVA - E492831). Our connectors are resistant to oils and cooling lubricants. However, resistance to aggressive media should be tested for each specific application.

Different cable lengths are available on request. Are you missing technical information? Please use our technical dictionary, where you will find explanations of coding and other technical details.

Product details: Power Male straight - female straight M12 - M12, 4-pole

T-coded

with cable sleeves

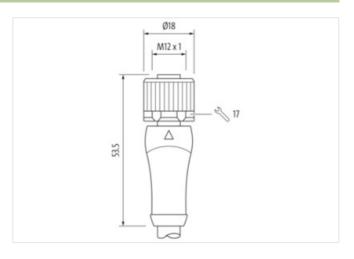

Plastic housings with good resistance against chemicals and oils.

The resistance to aggressive media should be individually tested for your application. Further details on request. Further cable lengths on request.

Header	
Material short text	MSWBTL0-WAT-T782_27.0
Cable length	27,00 m
Side 1	
Family construction form	M12P
No. of poles	4
Coding	T
Gender	male
Mounting method	inserted, screwed
Thread	M12 x 1
Tightening torque	0.6 Nm
Width across flats	SW17
Cable outlet	straight
suitable for corrugated tube (internal Ø)	12 mm
Material contact	Copper alloy
Coating contact	gold plated
Degree of protection (EN IEC 60529)	IP67, IP65, IP69K
Side 2	
Family construction form	M12P
No. of poles	4
Coding	T
Gender	female
Mounting method	inserted, screwed
Thread	M12 x 1
Tightening torque	0.6 Nm
Width across flats	SW17
Cable outlet	straight
suitable for corrugated tube (internal \emptyset)	12 mm
Material contact	Copper alloy
Coating contact	gold plated
Degree of protection (EN IEC 60529)	IP67, IP65, IP69K

Mounting method	inserted, screwed, Shaking protection
Environmental characteristics Climatic	
	-30 °C
Operating temperature min	00 0
Operating temperature min.	85 °C
Operating temperature min. Operating temperature max. Additional condition temperature range	85 °C depending on cable quality

Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces.
Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties.
