4-Way Privacy Screen For iPhone 15, Supports Portrait/Landscape Orientation, Touch-Enabled, +/-30 View, Tempered Glass Protector, 4Way Filter, TAA

Product ID: IP15T-PRIVACY-SCREEN

This Privacy Screen for the iPhone 15 smoothly transitions from a clear view to an obscured screen beyond the intended viewing angle, significantly enhancing visual privacy in office or public environments.

The security filter ensures optimal privacy in portrait or landscape orientations when viewed beyond 30 from the center, covering a total visible area of 60. It supports touchscreen input and gestures, preserving the interactive experience of an iPhone while maintaining the confidentiality of on-screen content.

Security shield with high-gloss finish that helps retain color vibrancy and features a coating to protect the display against scratches and fingerprints

The included applicator frame ensures a quick, precise, and bubble-free installation directly onto the iPhone screen for a long-lasting fit. The tempered glass protector features a precise fit that does not interfere with the sensors around the display, front camera, or earpiece.

This Blue Light Reduction Privacy Shield reduces eye strain and improves visual comfort by blocking 50% of the blue light emitted from the display (in the 390nm - 440nm wavelength range).
