

Chain Mount

SKU:U211

PLUG & PLAY

Description

Chain Mount is a structural expansion node in the M5Stack Chain series. The front panel features two LEGO-compatible mounting holes, allowing users to easily connect and extend structural components. The internal PCB comes pre-soldered with two directly connected HY2.0-4P interfaces, enabling seamless daisy-chaining with M5Stack Chain series devices without affecting their original functions, while supporting DIY construction of more diverse interactive applications.

Features

- LEGO-compatible mounting hole design
- M5Stack Chain series
- 2 x HY2.0-4P expansion interfaces for horizontal expansion of Chain series devices

Includes

- 1 x Chain Mount
- 1 x Chain Bridge

Applications

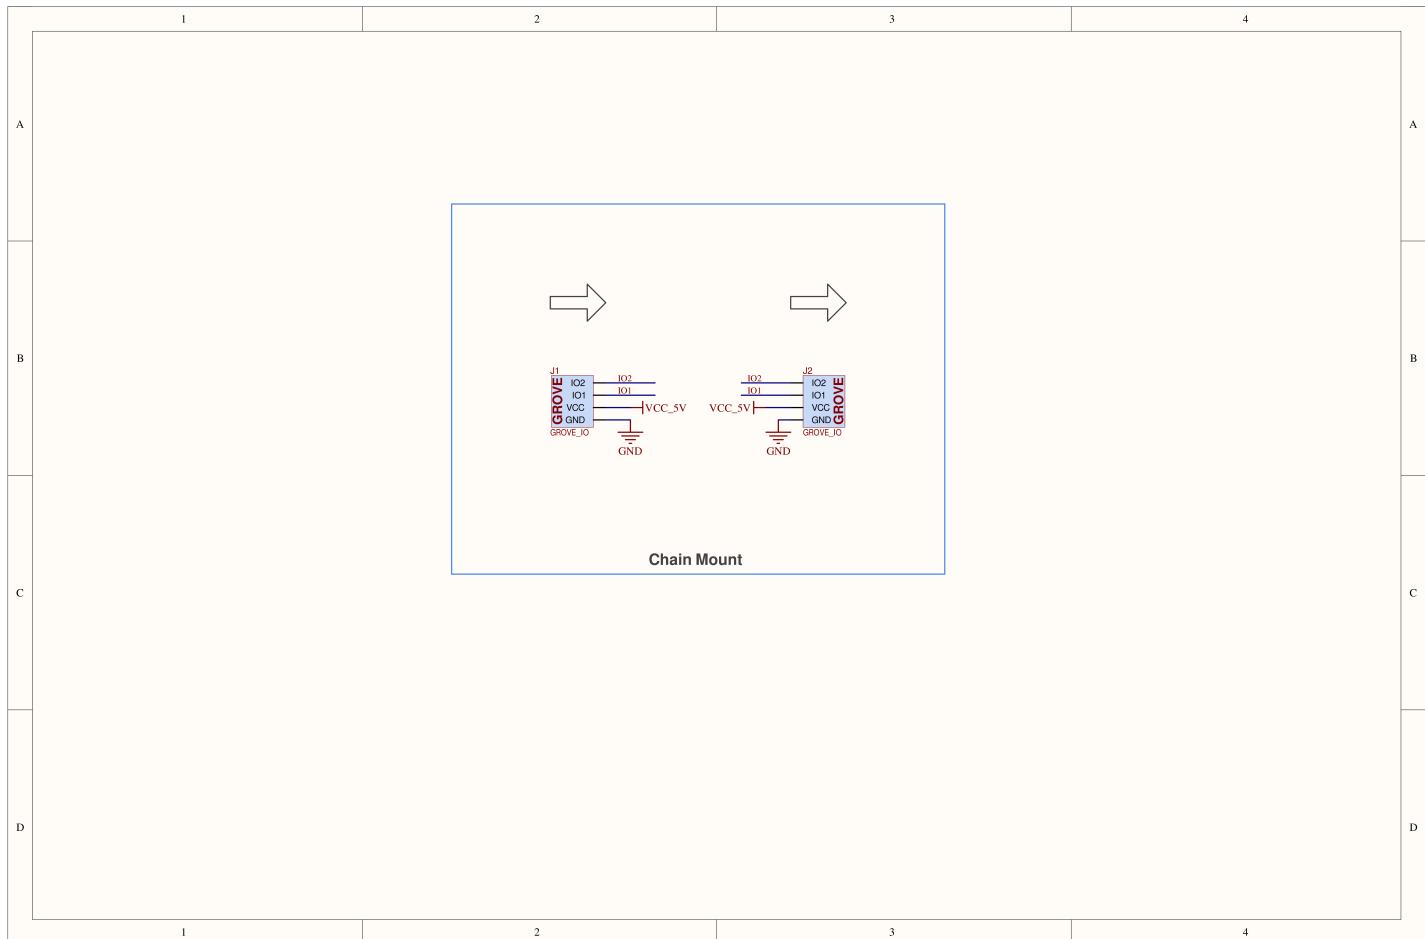

- Chain series DIY expansion

Specifications

Specification	Parameter
Product Size	23.9 x 23.9 x 16.0mm
Product Weight	5.7g
Package Size	138.0 x 93.0 x 13.0
Gross Weight	9.0g
