

Raspberry Pi 4 Metal Case

FIT0820

Product Overview

12-02-2022

For the most up-to-date information, visit www.mouser.com or the supplier's website.

Description

DFRobot Raspberry Pi 4 Metal Case consists of a metal case with a frosted tactile feel and a 3.5-inch TFT touch screen. The case features a touch screen with a resolution of 480 x 320 and a refresh rate of 60 frames. It can smoothly play all kinds of video information or games. The display is stable without flickering and has a touch function that can detect finger presses on the screen and respond in a timely manner. The screen is directly inserted into the Raspberry Pi IO port and powered by the mainboard IO ports, no separate power supply is required.
