

Qwiic Shield for Arduino Nano

DEV-16789

Product Overview

12-29-2021

For the most up-to-date information, visit www.mouser.com or the supplier's website.

Description

SparkFun DEV-16789 Qwiic Shield for Arduino Nano is designed to provide a quick and easy way to access the Qwiic ecosystem with an Arduino Nano board. This Qwiic shield connects the I²C bus on the Arduino Nano to four Qwiic connectors. The Qwiic shield for Arduino Nano features I²C jumper, logic shifting circuit and IOREF jumper, and Arduino Nano footprint compatibility. This device comes with two 15-pin female stackable headers.

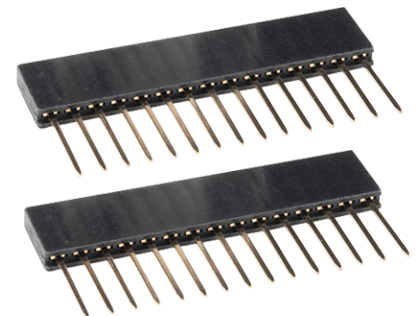

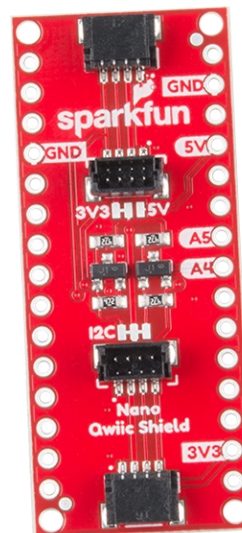

Features

- Arduino Nano footprint compatible
- 4x Qwiic connection ports
- Logic shifting circuit and IOREF jumper
- I²C jumper
- 3.3V and GND buses

Kit Includes

- 1 x SparkFun Qwiic Shield for Arduino Nano
- 2 x Arduino Nano 15-pin stackable headers
