

OUR RESISTOR, YOUR TRUST.

Committed To The Highest Reliability Standard, Since 1964.

Susumu Way: Trusted Quality

As industry's pioneer of the thin film resistors, we have tons of reasons why you should try our products first... because not all resistors are created equal.

- ✓ **Tight Tolerance and Low TCR ($\pm 0.01\%$, 1ppm)**
- ✓ **Less Noise Ave. -30dB**
- ✓ **Supirior Heat Dissipation**
- ✓ **High Frequency Performance (up to 50GHz)**
- ✓ **High Reliability, Zero-Defect**
- ✓ **100% ROHS / REACH Compliant**
- ✓ **Automotive Grade AEC-Q200 Compliant**

**Zero-Defect Award
by Toyota**

**AEC-Q200
Qualified**

**Ecological
100% ROHS**

Our Unique Products:

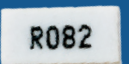

High Precision Thin Film Resistors

- AEC-Q200 Qualified
- Starting from $\pm 0.01\%$ Tol!
- High Temperature 230°C type

Current Sensing Resistors

- AEC-Q200 Qualified
- 0.15m Ω ~ shunt resistor with low TCR
- Low ESL!

High Frequency Components

- High Frequency Attenuators up to 50GHz
- High Power type available!
