NEW VIDEO ADAPTERS

12GHz UHD 4K/8K VIDEO PANELS from Switchcraft lead the broadcast industry due to their robust design and high quality signal performance. These new adapters are built from the same principals, allowing new flexibility to broadcast video engineers. Compatible with the front-facing jacks on Switchcraft 12GHz patch panels, they allow connection via BNC or MicroBNC plugs instead of patch panels. BNC versions are available in both short and long versions to allow usage in adjacent ports.

12GHZ+

UHD PERFORMANCE

Compatible with either HD or UHD signals, they are tested to the same high standard as Switchcraft panels

4 FLEXIBLE OPTIONS

A range of configurations ensures the right adapter is available to meet a wide range of common connection needs.

These adapters are made in the Switchcraft factory in Chicago to the highest quality standards.

PART NUMBER	COMPATIBLE JACKS	COMPATIBLE CONNECTOR
VMMPBNCFL	Switchcraft Micro Video (HD or UHD)	BNC or UHD BNC
VMMPBNCF	Switchcraft Micro Video (HD or UHD)	BNC or UHD BNC
VMMPMBF	Switchcraft Micro Video (HD or UHD)	MicroBNC or UHD MicroBNC
VMPMBF	Switchcraft Mid-size Video (HD or UHD)	MicroBNC or UHD MicroBNC
