

## Make your own HUGE!

1. Punch four holes where marked in the sides of the body and wheels.
2. Cut out all six pieces following the dotted lines. Pay special attention to the lines on the top portion of HUGE's menacing eyebrows, as well as the two cuts along the center of the body for the bar spinner.
3. Score the body and rear supports along the solid lines for easy folding.
4. Apply adhesive of your choice to the dotted areas and assemble the body.
5. Apply adhesive of your choice to the rear supports and glue them to the body, matching the L's and R's.
6. Apply adhesive or use pushpins to connect the wheels to the sides.
7. Battle friends' paper bots and win HUGE!

(For best results print on heavier paper or cardstock)
