

HDMI PCB connectors and patch cables

Perfect images and sound for any application

The new PCB connectors and patch cables in HDMI type A supplement our data interface portfolio. The high-quality items are optimal for the reliable transmission of audio and video data and Ethernet (HEC) in protected applications.

Your advantages

- ✓ Portfolio for any application with two outlet directions for the female connectors
- ✓ PCB connectors dimensioned for processing in automated SMT and THR reflow processes
- ✓ Future-proof data transmission thanks to HDMI 2.0 PCB connectors and high-speed patch cables
- ✓ One partner for everything: Always the right connector thanks to an extensive portfolio of connectors for data transmission

Main features

- Two outlet directions on the PCB
- USB PCB connectors for SMD soldering
- HDMI 2.0 USB PCB connectors
- HDMI high-speed patch cables
- Patch cables: 0.3 m ... 7.5 m
- HDMI Ethernet channel up to 100 Mbps

New product 2022				
Web code: #2889				
Description	HDMI PCB connectors		HDMI patch cables	
HDMI version	HDMI 2.0		HDMI high-speed with Ethernet	
Male connector	HDMI type A		HDMI type A HDMI type A	
Soldering technology	SMD		-	-
Cable length	-	-	2.0 m	5.0 m
Type	CUC-HDMI-J1ST-S/ HAF-SMD	CUC-HDMI-J1ST-AH/ HAF-SMD	NBC-HDMI-HAM/ 2,0-PVC/HAM	NBC-HDMI-HAM/ 5,0-PVC/HAM
Item number	1332073	1332071	1332082	1332084
